MICHEL VARIO-WAND

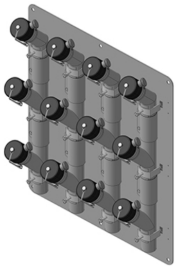

FACTS

- + Solid stainless steel sheet for diameters 40.0 - 60.3 mm
- + Incl. holes for attaching signs
- + For space-saving, flexible installation and quick assembly

1ST PLATE SELECT

FACTS

- + Solid stainless steel sheet for diameters 40.0 - 60.3 mm
- + Incl. holes for attaching signs
- + For space-saving, flexible installation and quick assembly

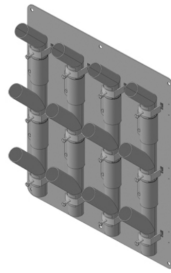

Article no.	Ø mm	Inputs	Outputs	Width	Depth
KWE-4050-04031	40,0 / 45,0 / 50,0	4	3	600	750
KWE-4050-05041	40,0 / 45,0 / 50,0	5	4	750	1000
KWE-4050-06041	40,0 / 45,0 / 50,0	6	4	900	1000
KWE-6076-05041	60,3	5	4	800	1120

2. PIPE MANIFOLD SELECT

FACTS

- + Modular, self-explanatory kit
- + Incl. pipe clamps and pipe connectors
- + Space-saving, loose shipping

Article no.	Material	Outputs
KWE-FL-0XX0E1-01	Stainless steel	1
KWE-FL-0XX0E1-02	Stainless steel	2
KWE-FL-0XX0E1-03	Stainless steel	3
KWE-FL-0XX0E1-04	Stainless steel	4
KWE-FL-0XX0E1-05	Stainless steel	5
KWE-FL-0XX0E1-06	Stainless steel	6

3. SELECT HOSE COUPLING

FACTS

- + Fully assembled / closed in pairs
- + Camlock Coupling: Tube adapter (CVRE) + cover flap (CMKA)
- + Quick couplings: Pipe adapter (SVRE) + cover cap (SMKK)
- + *For a center-to-center distance of 80mm, we recommend the quick couplings / one-hand couplings

Camlock

Article no.	Type	Diameter
KBE-CVRA-CMKA-0400	Camlock	40,0
KBE-CVRA-CMKA-0450	Camlock	45,0
KBE-CVRA-CMKA-0500	Camlock	50,0
KBE-CVRA-CMKA-0600	Camlock	60,0

Camlock - Hose

Article no.	Type	Diameter
CMSAE-0400	Camlock-Hose	40,0
CMSAE-0450	Camlock-Hose	45,0
CMSAE-0500	Camlock-Hose	50,0
CMSAE-0600	Camlock-Hose	60,0

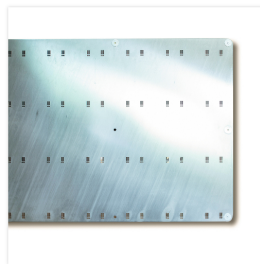

PRODUCT DESCRIPTION

The Michel Vario-Wand was derived from the Michel Vario-Tisch .

The Michel Vario-Wand combines the advantages of the Michel Vario-Tisch with even greater assembly flexibility on site. The components are delivered individually as an assembly group. The panel is hung/mounted like a picture and also serves as a cover plate. Attachments such as a drip tray for granulate or coding can also be retrofitted.

The Michel Vario-Wand can be mounted horizontally, vertically and at an angle. Cuts can be made on site. This enables the fitter to set up a coupling point on site in the simplest possible way.
