PIPE CODING

FACTS

- + Plastic pipe clip
- + for diameter $\varnothing$ 38.0 mm - 60.3 mm
- + Other colors on request

PRODUCT DESCRIPTION

In order to be able to distinguish the machines at a coupling station or at a coupling station in the best possible way and to avoid incorrect coupling, there is the option of optical / color coding. A wide variety of colors are incorporated during the production of the hose, which are reflected in the optical coding products at Michel Tube and thus ensure that the material lines are identified.

Products

Round tubes	Pipe bend
Tube fittings	Pipe connector
Pipe couplings	Hose lines
Hose couplings	Color coding
Material distributor	Suction lances
Magnetic separator	System components
