

Glass Pipe Elbows

Borosilicate glass elbows for wear protection when conveying abrasive materials. Dimensions are matched to stainless steel pipes. Externally applied copper tape provides electrical conductivity; matching glass tube connectors join the different outside diameters.

Borosilicate Glass | Pipe Elbow

- + Material: Borosilicate glass 3.3
- + With 5 mm wall thickness / for stainless steel pipe 40 / 50 / 60.3 / 76.1 mm
- + With glued copper tape

Pipe size: outside diameter (matching stainless steel diameter) x wall thickness, all in mm.

Article No.	Angle [°]	Radius [mm]	SV1 [mm]	SV2 [mm]	Pipe size [mm]
