

Michel Vario-Tisch

A modular coupling station system with a consistent operating height and expandable stainless steel frames. Two inlet levels and interchangeable pipe distributors allow later modifications. Configuration consists of the frame, pipe distributors and hose couplings.

1. Select the Frame

- + A frame for all diameters (40.0 / 45.0 / 50.0 / 60.3)
- + Solid, welded stainless steel frame
- + Standard with two inlet levels
- + Patent pending

Article No.	Inputs	Outputs	Center [mm]	Vario [mm]	Width [mm]	Depth [mm]
KBE-G-4060-04042	4	4	160	80	640	790
KBE-G-4060-06042	6	4	160	80	960	790
KBE-G-4060-08042	8	4	160	80	1280	790

2. Select the Pipe Distributor

- + Including inlet bend and pipe clamps
- + Fully assembled and installed
- + Delivery ready for connection

Article No.	Material	Level	Table	Outlets
KBE-FL-0500E1-4101	Stainless steel	1	4	1
KBE-FL-0500E1-4102	Stainless steel	1	4	2
KBE-FL-0500E1-4103	Stainless steel	1	4	3

3. Select the Hose Couplings

- + One-hand operation in the tightest of spaces
- + Audible and visible locking
- + Rotatable and alignable even when coupled
- + Product-contacting parts made of stainless steel
- + Codeable with the Switch&Lock Poka Yoke System as standard

Pipe connection + cover cap

Article No.	Type	Diameter
KBE-MVRE-MMKK-0400	Pipe connection + cover cap	40.0
KBE-MVRE-MMKK-0450	Pipe connection + cover cap	45.0
KBE-MVRE-MMKK-0500	Pipe connection + cover cap	50.0
KBE-MVRE-MMKK-0600	Pipe connection + cover cap	60.0

Hose connection

Article No.	Type	Diameter
MMSKE-0400	Hose connection	40.0
MMSKE-0450	Hose connection	45.0
MMSKE-0500	Hose connection	50.0
MMSKE-0600	Hose connection	60.0
