**Past Performance is not indicative of future results.** Returns reflect reinvestment of dividends/distributions. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. The investment adviser has agreed to waive a portion of its management fee subject to net assets under management through 7/31/28. Current performance may be lower or higher than the performance quoted. Performance current to the most recent month end may be found at [www.aristotlefunds.com/performance](http://www.aristotlefunds.com/performance) or by calling 1-844-274-7885. The Fund changed its investment strategies on February 17, 2025. Accordingly, any performance information for periods prior to February 17, 2025 is attributable to the Fund's previous investment strategies. Please see the current prospectus for detailed information.

<sup>1</sup>Class I-2 shown. The 30-Day SEC Yield represents the net investment income earned over the 30-day period ending on the above date and includes any fee waivers and expense reimbursements. It is an annualized rate calculated under a methodology prescribed by the Securities and Exchange Commission (SEC). Yields for other share classes will vary. Class I-2 shares are sold at net asset value (NAV) without an initial sales charge and do not include a contingent deferred sales charge (load).

Performance reflects any applicable fee waivers and expense reimbursements. If a sales charge had been deducted, the results would have been lower.

\*There is no guarantee the Fund will achieve its investment goal. The Fund's principal investment strategies will also be changed to remove the ESG Exclusionary Screens and the discussion of ESG Metrics.

Morningstar calculates a Morningstar Rating™ based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a fund's monthly performance, placing more emphasis on downward variations and rewarding consistent performance. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. The top 10% of funds in each category receive five stars, the next 22.5% receive four stars, the next 35% receive three stars, the next 22.5% receive two stars, and the bottom 10% receive one star. Morningstar Ratings for other share classes may have different performance characteristics.

Fund holding and sector allocations are subject to change and should not be considered recommendations to buy or sell any security.<sup>3</sup>Ratings received from S&P®, Moody's, and/or Fitch and measured on a scale that generally ranges from AAA (highest) to D (lowest) and may change over time. The higher rating is used when rating agencies rate a security differently. All ratings are converted to the equivalent S&P major rating category for purposes of the category shown.

## Historical Sector Allocation\*

\*Prior to Q1 2025 Agency MBS and Non-Agency MBS were categorized as Other.

Investing involves risk. Principal loss is possible. The Fund is subject to liquidity risk (the risk that an investment may be difficult to purchase, value, and sell particularly during adverse market conditions, because there is a limited market for the investment, or there are restrictions on resale) and credit risk (the risk an issuer may be unable or unwilling to meet its financial obligations, risking default). High-yield/high-risk bonds ("junk bonds") and floating-rate loans (usually rated below investment grade) have greater risk of default than higher-rated securities/higher-quality bonds that may have a lower yield. The Fund is also subject to foreign-markets risk.

**Investors should consider a fund's investment goal, risk, charges and expenses carefully before investing. The prospectus contains this and other information about the fund and can be obtained at [www.aristotlefunds.com](http://www.aristotlefunds.com). It should be read carefully before investing.**

**Bloomberg US Aggregate Bond Index** is composed of investment-grade U.S. government and corporate bonds, mortgage pass-through securities, and asset-backed securities. Indexes are unmanaged and cannot be invested in directly. Further, they hold no cash and incur no expenses. **Duration** measures a fund's sensitivity to interest-rate risk where the longer a fund's duration, the more sensitive, and vice versa.
