B2B BRANDING, WEBSITES AND FILM · BENGALURU · SINCE 2019

COMPANY PROFILE · V1.22 · 7 NOVEMBER 2026

BRAND STRATEGY WORKSHOP · TLH, HYDERABAD

Most B2B companies are better than buyers think

We close that gap. We learn your business until we can explain it better than your sales deck does. Then we build the name, the story, the identity, the website and the film that make the right people remember you.

B2B is the only thing we do.

Since 2019 · 48 people · Bengaluru

CLOUDPHYSICIAN · WEBSITE

We do three things. Only for B2B.

Branding

Workshops, positioning, a point of view and a manifesto. Then the verbal and visual identity that carry it.

Websites

Strategy and messaging first. Then the copy, the design, and the animation and interaction that tell the story. Built in Webflow or Astro, and yours to run after handover.

Film

Live action, 2D, 3D and stop motion. Brand stories, product films, explainers and launches.

We write the manifesto too

Before the identity, a brand needs something to stand for. This is the one we wrote with Becoming Quotient.

BECOMING QUOTIENT · LEARNING & DEVELOPMENT ↗

What an opportunity...

To shape your people.
To nurture them.
To raise their potential.
To build.
To build people.
To create the conditions.
To create the conditions for greatness.
To do right by your people.
To care for their growth.
To invest in them and see it come back tenfold.
To guide them.
To guide them right.
To challenge them.
To trust them.

To hold them to more.
To see them rise to it.
To watch someone become.
To measure their progress.
To show them the path they're on.
To show them how far they've come.
To give them evidence of their own progress.
To give them a living record that stays with them long after they've left.
To be the chapter they talk about.
To be the place they grew.

To see your people grow right in front of you.
To see your people go on to conquer the world.

To know you were part of how they got there.

ADNAUT · AD-TECH · NEW YORK, MANCHESTER, TORONTO, BENGALURU, INDORE ↗

“It finally felt like our outward face matched the work and the abilities we have.”

Vivek, Co-founder, Adnaut

BEFORE	RTB Analytica: a name made of industry jargon and a logo nobody remembered.
WE DID	A new name, an identity built on the tracking pixel every advertiser knows, the website, and a launch video in a week. 18 weeks in all.
SINCE	Bounce rate and session time **40 to 60% better**, by their own measurement. More enquiries, and better hires.

→ Ask us to put you in touch with Vivek, Adnaut’s co-founder.

BRANDING · WEBSITE · PITCH DECK · BRAND FILM

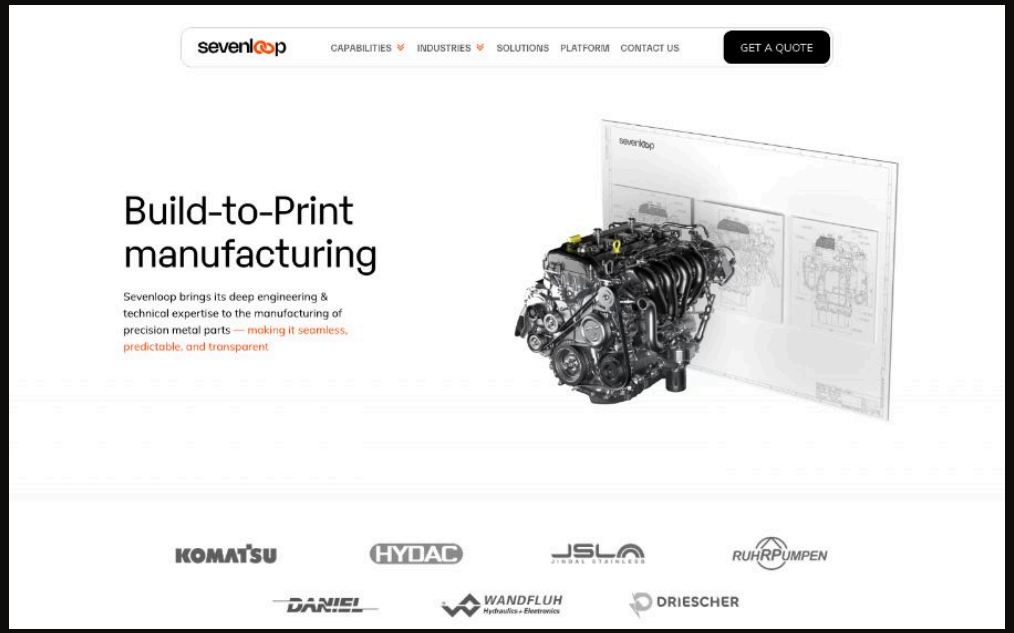

SEVENLOOP · PRECISION MANUFACTURING · BENGALURU · BACKED BY Z47 ↗

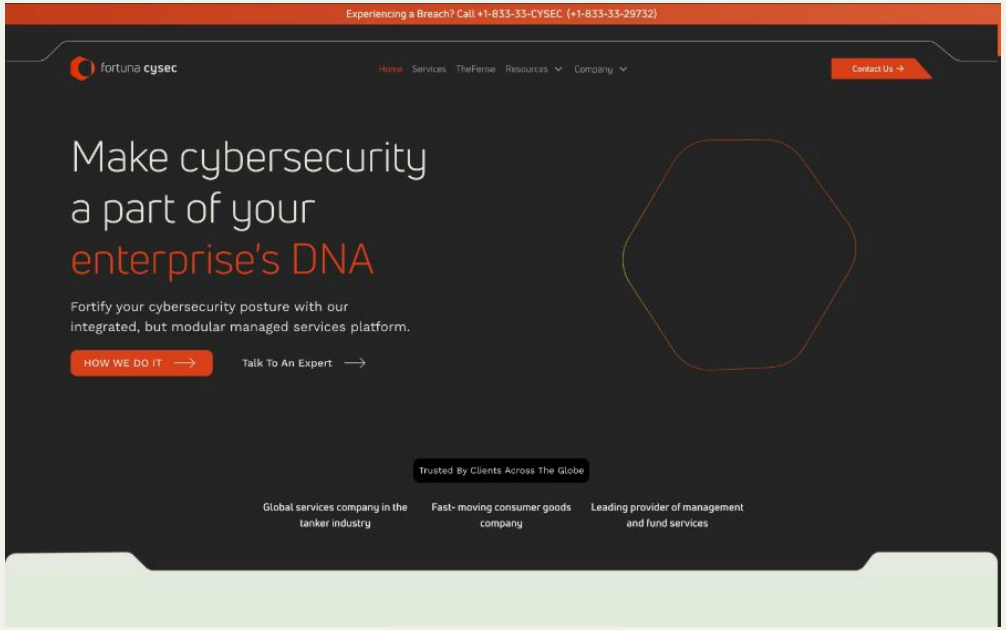

Three brand projects, three websites and a film. Same client.

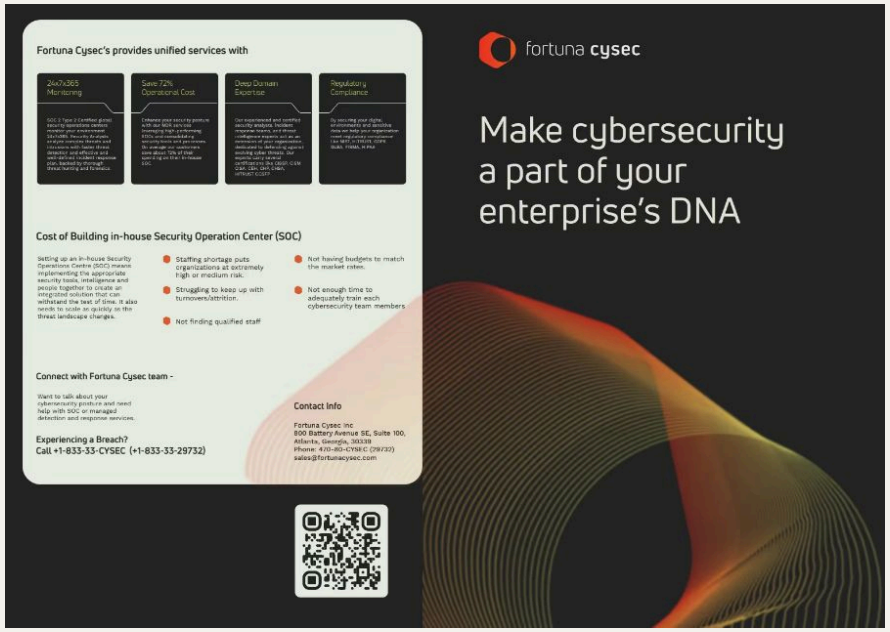

BEFORE	A $8M Series A manufacturer supplying Komatsu, Hydac and Jindal, with a brand that looked like everyone else's.
WE DID	Positioned the brand around precision. Identity, Webflow site, pitch deck, brochure and a brand film. Five months.
SINCE	"Conversations with our clients have become so much more easier now." Sharan Urubail, CEO & Co-founder

→ Ask us to put you in touch with Sharan Urubail, Sevenloop's CEO and co-founder.

BRANDING · WEBSITE · COLLATERAL

FORTUNA CYSEC · MANAGED CYBERSECURITY · SELLING TO CISOS, CIOS AND CFOS WORLDWIDE ↗

"When we first saw it, we actually fell off our chairs."

Navin Balakrishnaraja, Co-founder & CEO, Fortuna CySec, on the animation of how data moves through Fortunox

BEFORE	A new cybersecurity company, and a founder who hadn't worked with an Indian branding firm in 25 years.
WE DID	Market research by the second meeting. Messaging for each buyer: the CFO sees the ROI, the CISO gets the depth. Identity, website, brochures, business cards.
SINCE	They came back for two more brands from the group, Fortuna Identity and Nau. 5 projects and counting.

→ Ask us to put you in touch with Navin Balakrishnaraja, Fortuna CySec's co-founder and CEO.

RENAMING · BRANDING · WEBSITE · REPORT TEMPLATE

VECTON · AI FOR BANKS, NBFCS AND INSURERS · BENGALURU ↗

“You’d say Tuesday, 5pm, and you’d adhere to it.”

Himanshu Goyal & Gaurav Mandlecha, Co-founders, Vecton

BEFORE

Graphik AI, sent to us by their investor, Zeropearl. “We considered a freelancer, but when we saw your work we realised the time we’d spend thinking about this project would drop a lot. Whatever time we gave would be of very high importance.”

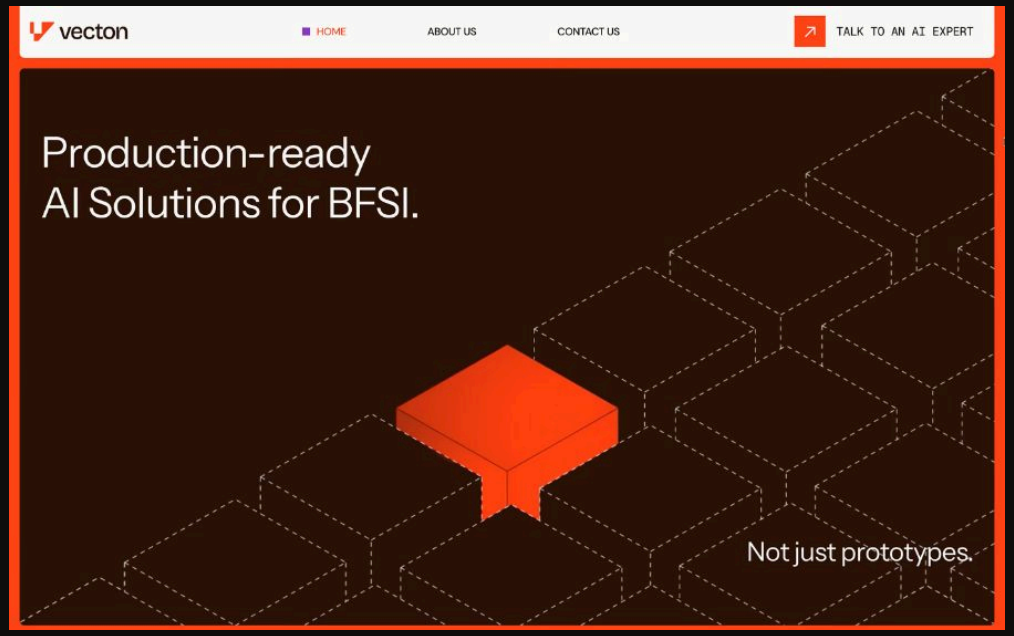

WE DID

A strategy workshop, then a new name on the first call: Vecton, from vector, magnitude and direction. Identity, website, brand system, report template. “This time the questions actually meant something.”

SINCE

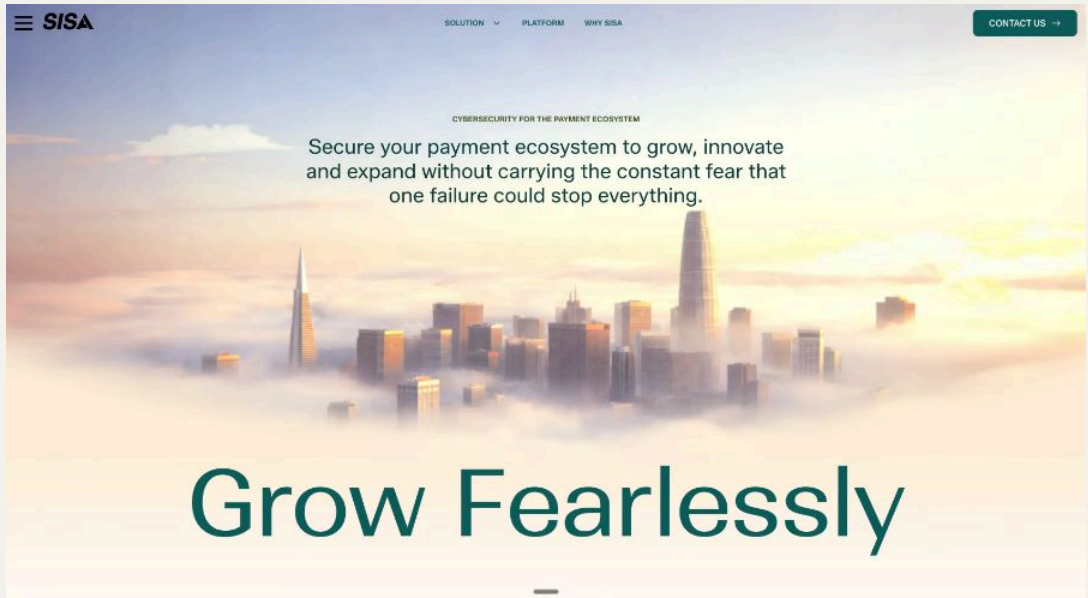

“In hiring it’s helped significantly. People say, ‘we went through your website and understood your business.’” And “the right arsenal to win any battle from a visual identity point of view.” Then they sent us Pepper.

→ Ask us to put you in touch with Himanshu Goyal and Gaurav Mandlecha, Vecton’s co-founders.

Twenty years old. 2,000 clients. A new front door.

BEFORE	A forensics-led security firm, founded in 2006, moving to sisa.ai.
WE DID	Refreshed the brand, designed and built the website, designed the brochure.
SINCE	Live on sisa.ai since April 2026. Their branding and website partner since 2025.

→ Ask us to put you in touch with Aparna or Venu from SISA's marketing team.

PRODUCT FILM · BOOTH · BRANDING · WEBSITE

CLOUDPHYSICIAN · HEALTHCARE AI · INDIA AND THE US · BACKED BY PEAK XV ↗

“If the heart rate was 120, it had to be 120. Not 100.”

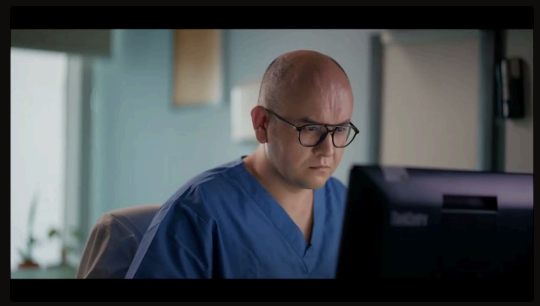

Ayesha Gopal, Chief of Care Center & Model Factory, Cloudphysician

FRIDAY	Their first US conference, for a room of ICU clinicians, was days away. Other vendors could not promise to deliver on time. They called us.
SATURDAY	We met them the next day with Tejus, our creative director. Mejo told them: “We’ll only take it on if we can deliver.”
THE SHOOT	Planned for six hours, ran to ten. Rewritten and reshot until every clinical value was exact. And a booth that stopped people walking past.
WEEKS LATER	“A couple of weeks after the first time we showcased that video, we closed our first US client.”
THEN	They came back for the brand and the website, rebuilt for the US. “The website is your first front door.” Dr Dileep Raman, Co-founder

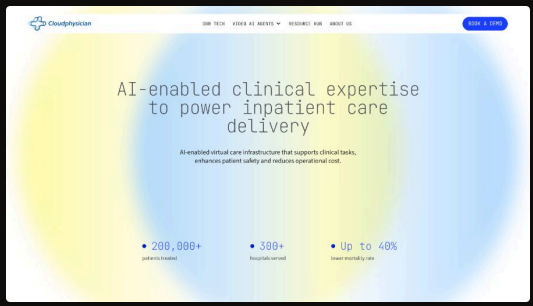

→ Ask us to put you in touch with Cloudphysician’s co-founders, Dr Dhruv Joshi and Dr Dileep Raman, or with Ayesha Gopal, Chief of Care Center.

Twelve reasons to hand us your brand

01

We understand what you're building, before we design a thing.

We learn the product well enough to explain it.

02

B2B is the only thing we do.

Clients keep coming back for the next project.

03

Strategy first. Then the identity.

Positioning, narrative and messaging, then the verbal and visual identity built on them.

04

We ask the questions no one else thinks to.

The right question, asked early, beats any process.

05

Time and money, both on the clock.

If something slips, you hear it early.

06

If a heart rate is 120, it has to be 120.

For Cloudphysician's film, a six-hour shoot ran ten, until every reading on screen was right.

07

We push back. You'll thank us for it.

Then we meet you where the real idea lives.

08

We don't just design it. We build it, in Webflow or Astro.

And film it, from the script up: live action, 2D, 3D or stop motion.

09

48 makers, one studio. And we play well with yours.

Strategists, writers, designers, developers and filmmakers.

10

We hand you the keys, not a dependency.

Built for your team to run, with no ticket queue.

11

B2B doesn't have to be boring.

Work teams are proud to show their buyers and their investors.

12

Our clients do our selling for us.

To their investors and founder friends, unasked. No testimonial here was paid for, or bought with a discount.

Watch them say it

"It never felt like a vendor relationship; it felt like a partnership."

Ayesha Gopal, Chief of Care Center & Model Factory, Cloudphysician

"Everything Design got the full understanding of the industry."

Zeeshan Shariff, Head of Marketing, Relanto

"The only agency that comes to mind for anything B2B SaaS."

Gautham Gopakumaran, Head of B2B Growth, PayBy

"They actually understood the product, something I struggle to explain to customers. The other agencies didn't even dive into understanding what we do."

Varun Khare, CEO, NimbleEdge

"They took the brand and website to where we wanted it to be."

Dr Mallesh Bommanahal, Co-founder, i3systems
