Sample Variation Disclaimer: Color may appear differently on different monitors, devices, and/or prints and flooring will vary in hue and saturation based on lighting. Samples that have been exposed to sunlight or naturally aged may differ slightly from the product received. No claims will be accepted due to variations in color, grain, and/or character between samples and installed floors. Installation is acceptance.

Product Disclaimer: All measurements are nominal. Wear layer refers to top layer thickness prior to treatment. Wire-brushing may marginally affect wear layer thickness. All plank boxes are 2350mm in length and material will arrive with mostly 2350mm planks and random 1850mm, 1175mm, and 500mm length starter boards.

Order Disclaimer: When ordering, always factor in at least one full box for any/all unforeseen damage that may occur during the life of your floor. Please consider and allow for a waste factor of 3-5% on normal layouts and 5-10% on detailed layouts such as 45-degree angles, patterns, border work, etc. Please also include end joint stagger and note that minor imperfections are to be cut off prior to installation. We recommend buying all flooring at the same time for your project, otherwise we cannot guarantee matching flooring if adding to an order.

Installation Disclaimer: This flooring must be installed in accordance to our installation instructions, included in all cartons of our flooring. More detailed installation instructions can be found at allorafloors.com. Failure to follow installation instructions will void your warranty.

Warranty Disclaimer: This flooring comes fully finished from the factory and requires no immediate surface treatment following your installation. Improper installation or the use of improper products and/or cleaning methods will void your warranty. Care & Maintenance guidelines are included in all cartons of flooring and can be found at allorafloors.com.

Colors are available in a range of dimensions, including 7-1/2" (192 mm) and 9-1/2" (242 mm) wide planks, and a herringbone pattern. Options are available in select character grade (ABCD) – minimal knots and cracks expertly filled and stained to blend into the flooring – and select grade (AB) – impressively clean with very few pin knots and an attractive, uniform grain.

All flooring is 5/8 inch (15 mm) thick, with an exceptional quality European Oak 4.0 mm thick wear layer and premium 100% Birch plywood engineered construction. Planks (7-1/2" and 9-1/2" wide) are impressively long and reach nearly 8 feet (2350 mm), with a majority of full-length planks in every box. Herringbone pattern floors are perfectly sized and proportioned at 4-3/4" (120 mm) wide by 23-5/8" (600 mm) long.

All Allora flooring is finished with an eight layer water-based matte UV lacquer, giving a modern look with time-tested durability. The gorgeous aesthetics bring together a natural warmth and authenticity that you can be proud to say is **100% Made In Italy**.
