

# ZHAW x Roche Hack 2025

Do you want to help shape real healthcare innovation? Then bring in your expertise & **hack the future!**

Whether as a creative mind, smart nerd or team player: join in and develop solutions for real challenges around **'Hospital at Home'** together with Roche Diagnostics at the interdisciplinary hackathon.

## What to expect

- Hands-on experience with real challenges from the world of digital healthcare
- Collaboration in interdisciplinary teams - tech, life sciences, business & more
- Hot topics such as smart patient care, data analysis, robotics and monitoring
- Direct feedback from experts
- Networking with industry professionals and exciting insights into the latest developments in personalised therapy, wearables, digital biomarkers & co.

## Perks & more

- ECTS ([depending on your study program](#))
- Prizes for winning teams in the amount of CHF 200-500
- Support in the further development of your ideas

## For whom is it?

The hack is open to students of all disciplines, in particular engineering, life sciences, data, health, business.

## When?

1. – 11 September 2025, Kick-off & Pitching event at Roche in Rotkreuz, everything in between in your own pace & schedule!

**Registration  
deadline**  
**31.07.25**
