

Msc Students in Engineering, Business, Health and Life Sciences: *"Here is to the crazy ones!"*

6th HealthTech Summer School 2027: Innovating disruptive Health AI & MedTech

Join ZHAW's interdisciplinary Summer School

This 6 ECTS- and Triple-E Award winning program is modelled on the pioneering Stanford Biodesign training to identify major market opportunities and invent high potential digital health solutions (e.g. AI diagnostic tools, DTx) or medical devices (e.g. implants).

It provides hands-on experience in shadowing patients and physicians, develop a compelling product idea and seed-stage business plan. Highly motivated students will benefit from interdisciplinary project groups with engineering, software, healthcare and business students and extensive coaching by industry specialists.

- Dates** Jul 12 – 27 (12 course days) at ZHAW Winterthur and clinics.
- Content** Biodesign process, clinical immersion in hospital, hands-on business strategy, design thinking, regulatory, reimbursement, intellectual property, R&D and venture financing workshops.
- Admission** Limited to 24 innovation- and internationally-minded Master and PhD students from in- and outside ZHAW. 1st round applications by Nov 1st, 2nd round by March 15th, 2026. Healthcare experience beneficial, but not compulsory.
- Fees** ZHAW students: free. Internat. Master-/PhD students: CHF 480. EELISA and Swiss university students: CHF 240.
- Application:** Motivation, CV and Bsc grade to healthtech.sml@zhaw.ch
- Questions:** Business & Non-ZHAW students: Dr. J. Haarmann. Engineering: Prof. M. Bonmarin. Health Professions: N. Zigan. SLS lifescience students: Dr. M. Nyfeler
