Keep Ohio Beautiful

2026 State of Recycling

Rumpke's Recycling Capabilities

- 16 Recycling Facilities
  - Columbus MRF – Largest MRF in North America
  - Cincinnati MRF – 4th largest MRF in North America
  - Glass Recycling Facility
  - Tire Recycling Facility

- Cincinnati Museum Center's Rumpke Recycling Truck exhibit
- RRRC's education center and Cincinnati tours
- Annual recycling roundups
- Educational/informational flyers and mailers

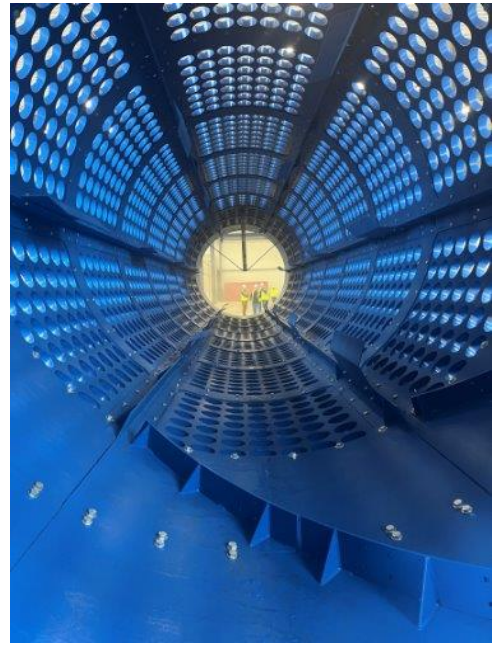

By the Numbers

- 23,166 new recycling residents
- 8,657 subscription customers
- 225,904 processed tons so far
  - 85,745 in Cincinnati
  - 162,325 in Columbus
- 14.8% contamination
- Over 90% of single-family homes have access to recycling
- Almost 10% of multi-family units have access to recycling

Rumpke Resource and Recycling Center

- Trommels
  - Size Separation
- OCC Triple Deck Screen
  - Increased OCC capture in Pre-Sort
- Optical Sorters
  - Redirecting fiber and containers
- Ballistic Separators
  - 2-D (fiber) and 3-D (container) separation
- AI Technology
  - Enhanced reporting & material identification

Dayton Glass Plant

Rumpke collects and processes about 60,000 tons of glass annually

- Over $1 million has been invested into the glass processing machinery
- The new NIR Optical Scanner has increased flint production by 10-12%
- Inbound tonnage has increase by 11,000 tons since 2015
- Over the last 10 years, Rumpke has sold 436,309 tons of glass
- Currently running 5,000 tons a month, we have the capacity to run 8,000 tons a month

New and Growing Markets

- Maysville
- Georgetown
- Batavia Township
- Washington Township
- Marysville Schools
- Lewisburg
- Sidney
- New Carlisle
- RPHF Recycling Drop Off

Community Involvement

- NBC4 annual Call 4 recycling campaign
- Montgomery County Master Recycling presentation
- Earth Day events around Ohio
- Partnerships with Ohio colleges and universities
- Ohio State Fair
- Great Miami Riverway Summit
- Columbus Crew Earth Day & America Recycles Day Clean-Ups
- Covington Riverfront redevelopment

Battery Safety

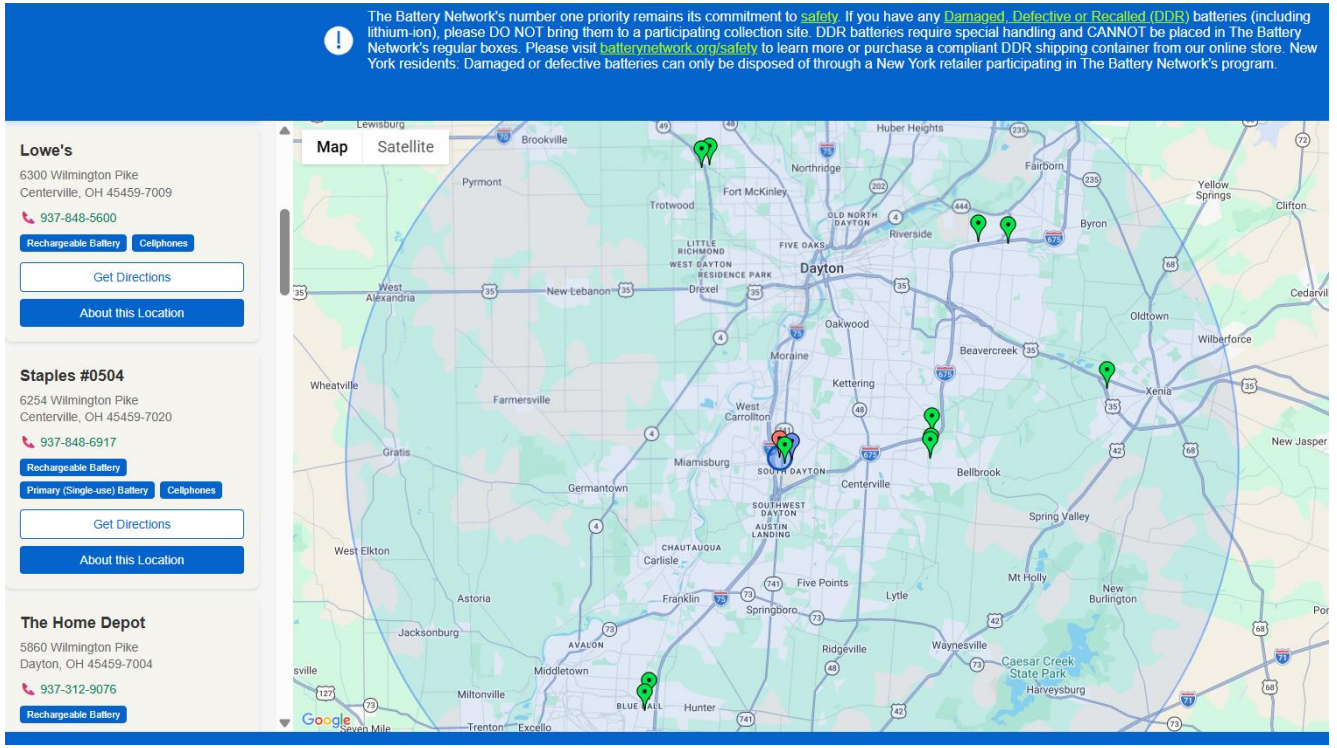

- NWRF and Rumpke have partnered to help raise awareness for proper battery disposal.
- NWRF and Rumpke attended the Ohio State Fair to collect batteries from residents and offered an interactive tour of the NWRF camper.
- Each mailer going to residents contains a QR code and the Woodsy graphic.
- 250 pounds of batteries were collected.

Where Should Batteries Go?

Making it More Convenient

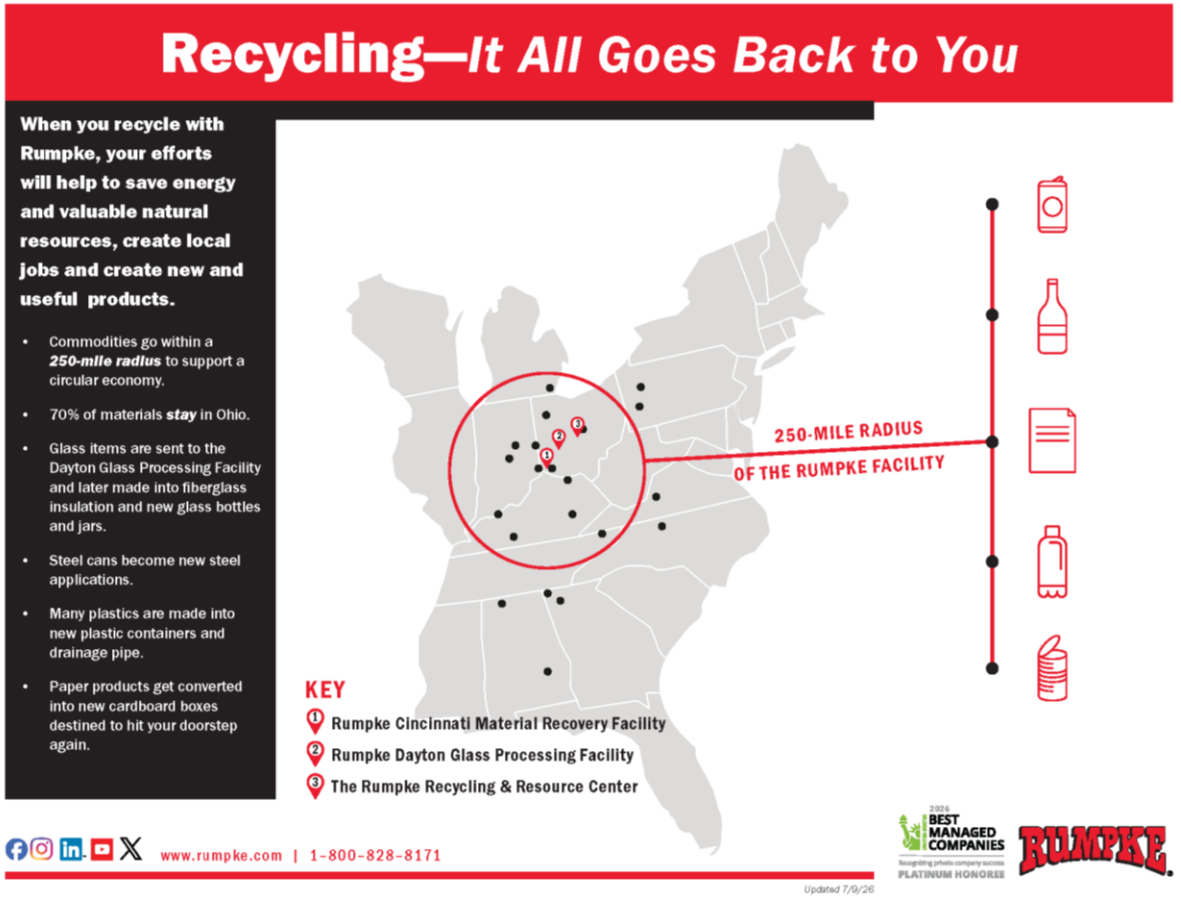

- Check your local county solid waste district
- Lowe's, Home Depot and Staples locations throughout Ohio
- https://batterysafetynow.org/ to learn more

BEST MANAGED COMPANIES

RUMPKE

Rumpke End-Users

- Growing the list of end-users
- Adjusting recyclables destinations
- Nearly 80% stays in Rumpke's footprint
- End-users removed:
  - Phoenix Plastics
  - Freepoint
  - Evergreen

Cost – inflation correlation

- Corrugated paper price continue to rise since the start of the year
- Plastic is in influx
- Paper mills are looking for more domestic recycled cardboard
- Fuel surcharge continues to be a challenge

Hefty ReNew Phase-out

- Retailers will stop distribution at the end of 2026
- Rumpke will continue collection through the end of February 2027
- Lack of a consistent list of end-users
- Quality of material not meeting end-user standards
