

Primary Care Clinic, Small

SKU.PCCL.S

OVERVIEW

BLOX is the largest manufacturer of healthcare buildings in the U.S., with over 10,000 modules installed nationwide—including our best-in-class Primary Care Clinic. Using our Design Manufacture Construct (DMC) approach, we standardize complex components and streamline delivery through integrated design, manufacturing, and construction. This enables healthcare systems to expand quickly, lower costs, and ensure consistent, high-quality environments. BLOX's clinic product line creates efficient, repeatable spaces that are both beautiful and highly functional for care teams and patients alike.

DETAILS

Foot Print: 8,700 SF

Modules: 5

Fully equipped

Steel Framed, Modular Construction

Fully Sprinklered
