

STAYING WITH AN ADULT

When it's time to go outside with my parents, siblings or family members, I have to stay with an adult.

We might go shopping or to the park. It is fun when we go outside.

Sometimes I may walk away from the adult I am with. They may not know where I am. This may make them feel worried. They need to know where I am so I stay safe.

When we are out of the house, I will stay with the adult I left with.
