

GOING TO THE DOCTOR

It's time for my check-up at the doctor's office. We have to check in at the front desk when we arrive. If there's a wait, we'll sit down until my name is called.

When it's my turn, I'll go into the exam room.

The nurse might check:

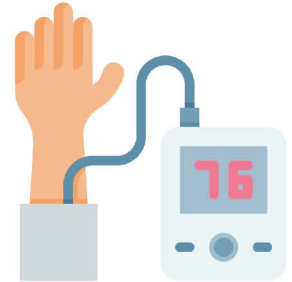

how tall I am

my weight

my blood pressure

The doctor will then join us in the room. They might check

my ears

the inside of
my mouth

my heart and lungs

When I am all done, I can thank the doctor for helping keep me healthy.
