

WHO ARE SOCIAL WORKERS

Whenever I need help, I need to talk to a safe adult.
A safe adult at school could be a social worker.

Social Workers are professional helpers.
They can assist me when I have a problem.

These problems can be in:

Class

School

Home

Social workers can help with so many things.
They can help me, my teachers or even my
parents.

A social worker's job is also to make sure I am safe
and cared for, this includes at school and at home.

Whenever something in school or life gets too
hard, I know I can talk to a social worker.
