

# VISITING A PUMPKIN PATCH

In the fall, we visit the pumpkin patch! We visit in the fall because all the pumpkins are growing and ready to harvest. We might dress in warm clothes to visit the pumpkin patch since the weather is starting to cool.

Since many people may be at the pumpkin patch enjoying the fall day, I must stay with a safe adult so I don't get lost.

Visitors might take pictures with the pumpkins and we might take some too.

The pumpkin patch has a lot of activities for us to do. They might have:

Hayrides

Corn mazes

Face painting

We can also get some tasty treats like:

Apple cider donuts

Kettle corn

Hot chocolate

If there is a pumpkin we like, we may harvest it with the special tools the farm gives us, pay for it, and take it home.

Visiting the pumpkin patch in the fall is always a fun activity with so much to do!
