

HOLIDAY LIGHTS SOCIAL STORY

During the holiday season, people put decorations outside of their houses to celebrate.

My family and I look at the lights and decorations in our neighborhood or our community. We might walk or drive to see the decorations.

I make sure to stay with my family and follow directions when we walk to a house with lights.

If the lights are too bright, I can put on my sunglasses or look away.

Going to see the decorations is so fun and I can't wait to do it again next year.
