

MY SUMMER ROUTINE

When the school year ends, the summer begins! During the summer, I don't go to school every day or see my teachers until school starts again in August. Time off from school means my daily routine will change. While change might seem scary, there are many fun things we get to do in the summer.

During the summer, I spend more time at home. Since I don't go to school, I do a lot of fun activities at home instead, like:

Arts & Crafts

Watch Movies

Play with Toys

We can also plan activities to do outside, like:

Play at the Park

Ride Bikes

Swim in the Pool

During the summer, I might also go on vacation. I may travel with my family by:

Car

Airplane

Boat

We might go to:

The Beach

Visit Family

A Theme Park

My summer routine is different than my school routine. I will go to new places and spend time with different people than I do at school. I can help plan my summer by telling my parents the activities I want to do during the break.
