

# OPENING GIFTS

During the holiday season, I might receive gifts!  
When it is time to open gifts, I will wait for my turn.

Once it is my turn, I will wait until I am given the present in my hands. If I need help opening the present, I can ask an adult for help by saying or signing "Please help!"

Once my present is unwrapped, I can say or sign  
"Thank you!" to the person who gave it to me.

If I receive more than one present, I will make sure to open all of my gifts. Then I can say or sign "Thank you for all of my gifts!"

Once all my gifts are open, I can ask if I can start playing with them or if I need to wait until later.

If I have a present for someone, I can put the present in their hands so they can open it. They might say or sign "Thank you!" to me, and I can say or sign "You're welcome!" back to them.

Giving and receiving gifts is a lot of fun, and it's important to show our appreciation when we receive gifts during the holiday season.
