

THE LONG WEEKEND

This weekend will be a long weekend. A typical weekend is two days long and includes the days Saturday and Sunday. A long weekend means that we will get an extra day added to our weekend.

A long weekend means that we will get an extra day added to our weekend. It could be a Friday or a Monday, depending on the long weekend. We will have a few long weekends throughout the school year.

The reason for a long weekend could be because of a holiday or a teacher planning day.
Some holiday weekends include:

Martin Luther
King Jr. Day

Presidents'
Day

Memorial
Day

Labor
Day

If it's for a teacher planning day, then that means our teachers are working hard that day to plan assignments or grade existing ones.

Since we do not go to school on the Friday or Monday of the long weekend, we might do fun activities at home or even take a trip.

Once the long weekend is over, we will return to school and continue the fun of learning!
