What We Offer

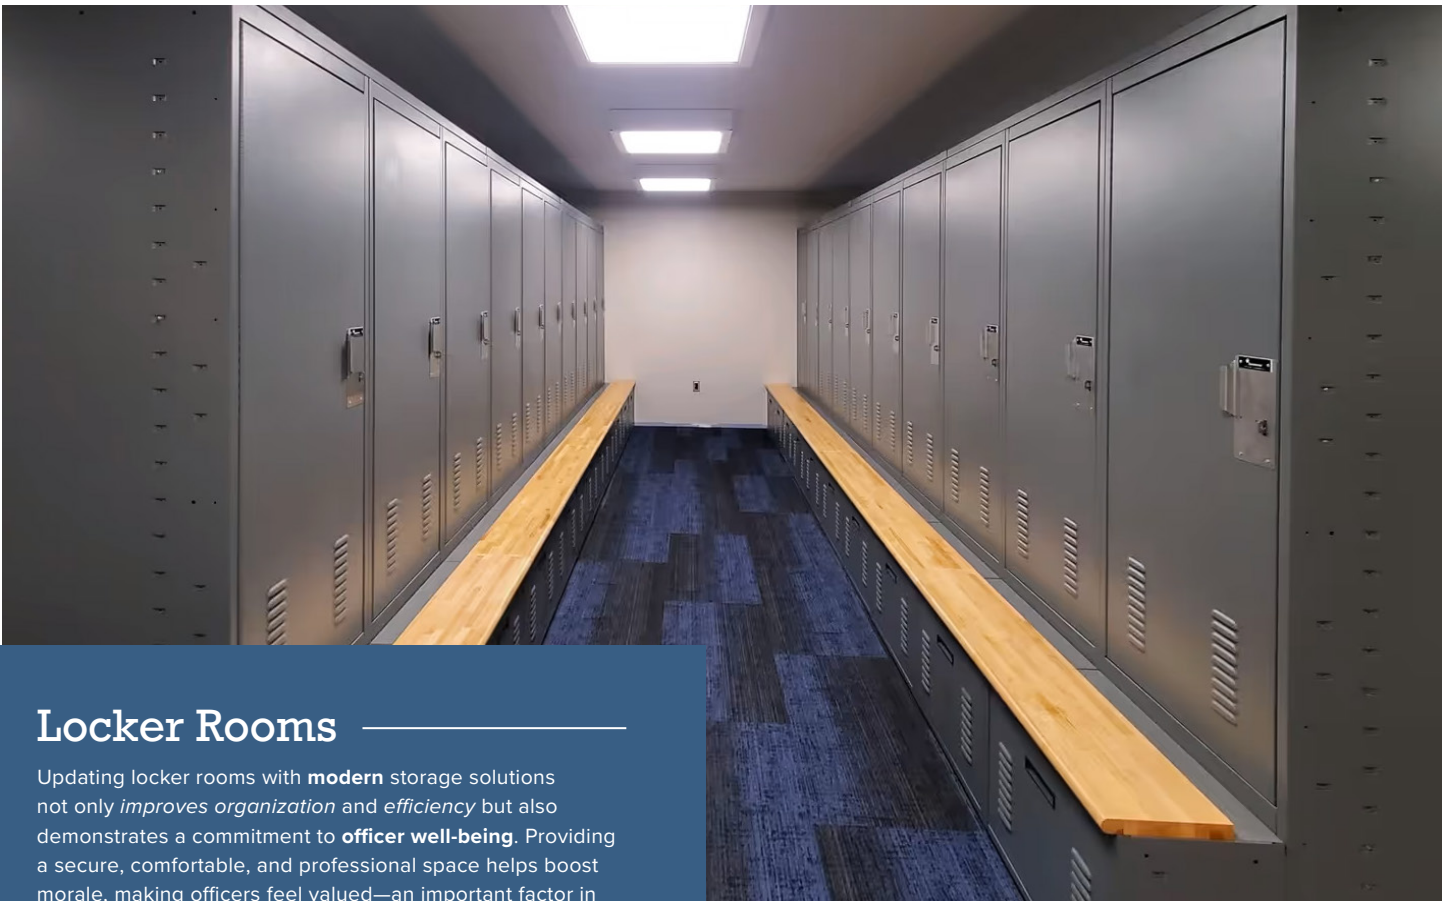

At DSS, we provide secure, scalable storage solutions tailored for public safety. From locker rooms to evidence, records, and weapons storage, we help agencies stay organized, compliant, and ready to serve—because we're not just storing your assets, we're protecting your future.

Evidence Storage

Upgrading evidence storage with secure, *tamper-resistant* lockers reinforces the **chain of custody** by protecting the integrity of collected materials. A well-designed system not only ensures *compliance* and *accountability* but also gives officers **confidence** that critical evidence is *preserved properly*, supporting successful case outcomes.

Locker Rooms

Updating locker rooms with **modern** storage solutions not only *improves organization and efficiency* but also demonstrates a commitment to **officer well-being**. Providing a secure, comfortable, and professional space helps boost morale, making officers feel valued—an important factor in *retention* and *long-term job satisfaction*.

| Weapon Storage

Upgraded weapon and gear storage provides both **security** and **quick accessibility**, ensuring firearms and equipment are *protected yet ready when needed*. With configurable solutions built for law enforcement and military use, these systems give **personnel confidence** that weapons are safely stored, organized, and instantly available for rapid response.

Record Storage

Proper record storage is **vital** in public safety, ensuring *transparency, accountability, and compliance*. By keeping files *organized, secure, and accessible*, well-designed systems **protect** critical documents, **preserve** trust, and **strengthen** an agency's ability to serve its community.

How We Deliver

We partner with businesses to deliver tailored storage solutions that boost efficiency, streamline operations, and support scalability. With decades of expertise and a commitment to innovation and quality, DSS keeps your assets secure while helping you prepare for the future.

1. Site Assessment

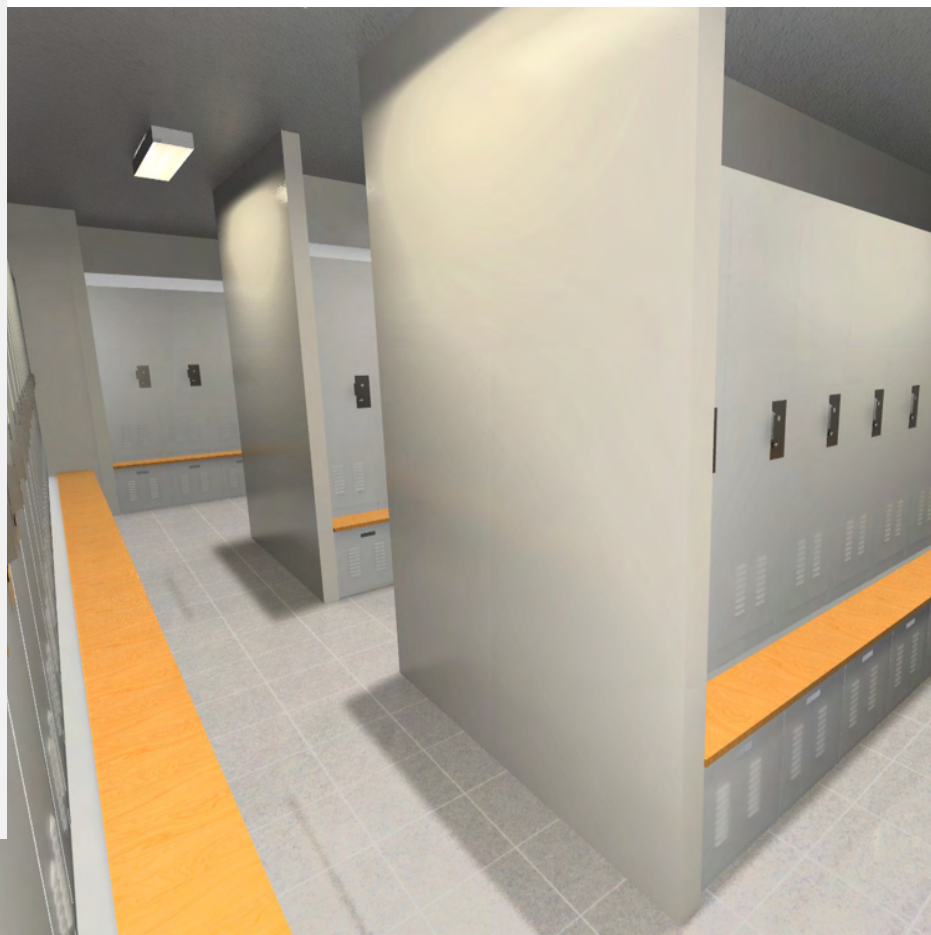

DSS provides a complimentary site assessment to identify the most efficient methods for maximizing your space. Our team works with you to understand your specific needs and design storage solutions accordingly.

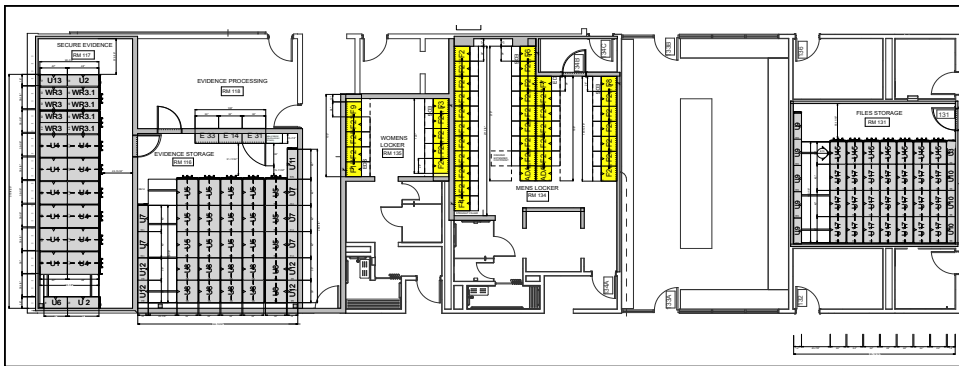

2. Design

Throughout the design process, DSS provides drawings, elevations, and renderings to offer a clear vision of the project's final outcome.

3. Installation

Our project management team will contact you once your order is placed to coordinate installation within your schedule. DSS also utilizes experienced, Spacesaver-Certified technicians to ensure your installation complies with all manufacturer guidelines.

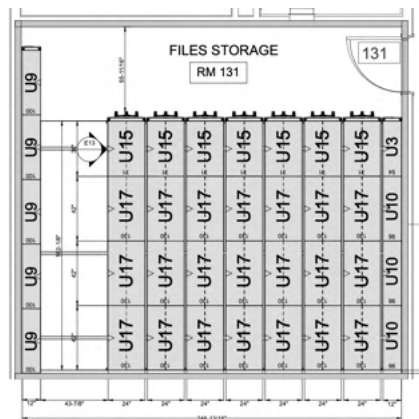

After a site assessment, our team will begin drawing up floor plans for prospective areas discussed.
