INDIANA**

**NOTICE OF PRIVACY PRACTICES**

**THIS NOTICE DESCRIBES HOW MEDICAL/BEHAVIORAL INFORMATION ABOUT YOU MAY BE USED AND  
DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION.  
PLEASE REVIEW IT CAREFULLY**

**OUR PLEDGE REGARDING MEDICAL INFORMATION**

We understand that medical information about you and your health is personal. We are committed to protecting medical information about you. We create a record of the care and services you receive. This record is needed to provide you with quality care and to comply with certain legal requirements. This notice applies to all the records (paper or electronic) of your care generated by Good Samaritan Family Health Center.

This notice will tell you about the ways in which we may use and disclose medical information about you. We also describe your rights and certain obligations we have regarding the use and disclosure of medical information.

We are required by law to:

- Ensure that medical information identifying you is kept private
- Give you this notice of our legal duties and privacy practices with respect to medical information about you
- Follow the terms of the notice that are currently in effect
- Notify affected individuals if a breach of unsecured medical information occurs.

**HOW WE MAY USE AND DISCLOSE MEDICAL INFORMATION ABOUT YOU**

The following categories outline how we may use or disclose medical information, with examples provided. While not all uses or disclosures will be listed, all permitted actions fall within these categories.

- **For Treatment.** We may use medical information about you to provide you with medical treatment or services. We may disclose medical information about you to healthcare providers, nurses, technicians, medical students, clinical students, or other Family Health Center personnel who are involved in your care. For example, a provider will share your medical information in order to coordinate a referral to a specialist. Different departments of the Family Health Center may also share medical information about you in order to coordinate the things you need, such as prescriptions, lab work and X-rays. We may also disclose medical information about you to people outside the Family Health Center who may assist with your care outside the facility.
- **For Payment.** We may use and disclose medical information about you so that the treatment and services you receive at the Family Health Center may be billed to and payment collected from you, an insurance company, or a third party. We may also tell your health plan about a treatment you are going to receive in order to obtain prior approval or determine whether your plan will cover the treatment.
- **For Health Care Operations.** We may use and disclose medical information about you for Family Health Center operational reasons. These uses and disclosures are necessary to run the Family Health Center and ensure that all of our patients receive quality care. For example, we may use and disclose medical information to review our treatment and services, evaluate the performance of our staff in caring for you, or to accrediting agencies that evaluate our performance. We may also combine medical information about many Family Health Center patients to evaluate current services and to decide what additional services the Family Health Center should offer. We may also disclose information to doctors, nurses, technicians, medical students, clinical students, and other Family Health Center personnel for review and learning purposes. We may also combine the medical information we have with medical information from other health care providers to compare how we are doing and areas for improvement in the care and services we offer. We may remove information that identifies you from this set of medical information so others can use it to study health care and health care delivery without learning who the specific patients are.
- **Appointment Reminders.** We may use and disclose medical information to contact you as a reminder that you have a Family Health Center appointment.
- **Treatment Alternatives.** We may use and disclose medical information to tell you about or recommend possible treatment options or alternatives that may be of interest to you.

- **Health-Related Benefits and Services.** We may use and disclose medical information to tell you about health-related benefits or services that may be of interest to you.
- **Fundraising Activities.** We may disclose information for fundraising efforts. If you do not want the Family Health Center to contact you for fundraising efforts, you have the right to opt out of receiving such communications by notifying the Family Health Center.
- **Individuals Involved in Your Care or Payment for Your Care.** We may release medical information about you to those individuals that you identified on the Release of Protected Health Information. In addition, we may disclose medical information about you to an entity assisting in a disaster relief effort so you may receive medical attention.
- **Research.** Under certain circumstances, we may use and disclose medical information about you for research purposes. For example, a research project may involve comparing the health and recovery of all patients who receive one medication to those who receive another for the same condition. All research projects, however, are subject to a special approval process. This process evaluates a proposed research project and its use of medical information, trying to balance the research needs with patients' need for privacy of their medical information. Before we use or disclose medical information for research, the project will have been approved through this research approval process. We will ask for your specific permission if the researcher will have access to your name, address or other information that reveals who you are, or will be involved in your care at the Family Health Center.
- **As Required by Law.** We will disclose medical information about you when required to do so by federal, state or local law.
- **To Avert a Serious Threat to Health or Safety.** We may use and disclose medical information about you when necessary to prevent a serious threat to your health and safety or the health and safety of the public or another person. Any disclosure, however, would only be to someone able to help prevent the threat.
- **Confidentiality of Substance Use Disorder (SUD) Records** Family Health Center complies with the confidentiality requirements under 42 CFR Part 2 and the updated HIPAA Privacy Rule for Substance Use Disorder (SUD) treatment records.
  - **Use and Disclosure:** SUD records will not be disclosed without your written consent, except as permitted by law. This includes disclosures for treatment, payment, and healthcare operations under strict safeguards.
  - **Redisclosure Prohibition:** Any entity receiving your SUD records is prohibited from redisclosing them unless you provide explicit written consent.
  - **Right to Revoke Consent:** You may revoke your consent at any time, except to the extent that action has already been taken.
  - **Right to Request Restrictions:** You may request restrictions on the use or disclosure of your SUD records, and we will accommodate reasonable requests.
- **Reproductive Health Privacy** Family Health Center protects the privacy of your reproductive health information, including services related to contraception, pregnancy, fertility, abortion, and gender-affirming care.
  - **Use and Disclosure Limitations:** We will not disclose reproductive health information without your written authorization unless required by law or for emergency treatment.
  - **Right to Confidential Communications:** You may request that we communicate with you about reproductive health services in a specific way (e.g., via alternate phone number or mailing address).
  - **Right to Restrict Access:** You may request that certain reproductive health information not be shared with specific individuals, including family members or other providers.
  - **Protection from Legal Inquiries:** We will not disclose reproductive health information to law enforcement or other entities without a valid legal basis and your authorization, unless required by law.
- **Organized Healthcare Arrangement (OHCA)** Good Samaritan Family Health Center is part of an Organized Health Care Arrangement (OHCA) including participants in the Clinically Integrated Network of Indiana (CINI). A current list of CINI participants is available at [www.cinindiana.com](http://www.cinindiana.com). As a business associate of Good Samaritan Family Health Center, CINI supplies information technology and related services to Good Samaritan Family Health Center and other CINI participants. CINI also engages in quality assessment and improvement activities on behalf of its participants. For example, CINI coordinates clinical review activities on behalf of participating organizations to establish best practice standards and assess clinical benefits that may be derived from the use of electronic health record systems. CINI also helps participants work collaboratively to improve the management of internal and external patient referrals. Your personal health information may be shared by Good Samaritan Family Health Center with other CINI participants or a health information exchange only when necessary for medical treatment or for the health care operations purposes of the organized health care arrangement. Health care operations can include, among other things, geocoding your residence location to improve the clinical benefits you receive.

The personal health information may include past, present, and future medical information as well as information outlined in the Privacy Rules. The information, to the extent disclosed, will be disclosed consistent with the Privacy Rules or any other applicable law as amended from time to time. You have the right to change your mind and withdraw this consent; however, the information may have already been provided as allowed by you. This consent will remain in effect until revoked by you in writing. If requested, you will be provided a list of entities to which your information has been disclosed.
