North Georgia Christian Academy Inc. Provides Notice of Data Security Incident

The privacy and security of personal information is of the utmost importance to North Georgia Christian Academy Inc. ("North Georgia"). This notice contains information regarding a data security incident that involved certain protected personal information collected and maintained by the Academy. We are providing individuals with information about the incident and the services being made available to those who are involved. North Georgia continues to take significant measures to protect the personal information in our possession.

North Georgia experienced a data security incident on or about April 29, 2025. Upon learning of this, North Georgia immediately commenced a prompt and thorough investigation. As part of the investigation, North Georgia engaged external cybersecurity professionals who regularly investigate and analyze these types of situations to help determine the extent of any compromise of the information on the North Georgia network. It was determined that an unauthorized actor accessed or acquired certain files from the North Georgia network. With the assistance of external experts, North Georgia worked to review the impacted files to determine whether personal information was impacted by the incident. On October 31, 2025, we discovered that certain files containing personal information in the possession of North Georgia were impacted by the incident. The impacted data includes full names in combination with date of birth, Social Security Number, driver's license number, Medical Treatment Procedure Information, Clinical Information, Medical Diagnosis Information, Treatment Location, and Doctor Name. Not all data elements were impacted for every individual.

To date, North Georgia is not aware of any incidents of identity fraud or financial fraud as a result of the incident. Nevertheless, out of an abundance of caution, North Georgia is providing notice to potentially affected individuals. North Georgia mailed notification to all individuals it has contact information for on file, via U.S. mail on November 18, 2025. Notified individuals may take steps to protect themselves including placing a fraud alert/security freeze on their credit files, obtaining free credit reports, and remaining vigilant in reviewing financial account statements, explanation of benefits statements, and credit reports for fraudulent or irregular activity on a regular basis. In addition, individuals who may have had their Social Security number involved are encouraged to enroll in complimentary credit monitoring services provided in the notification letter.

Individuals who have questions or need additional information regarding this incident or to determine if they are affected may reach out to the toll-free response line that our office has set up to respond to questions at 706-635-6422. This response line is available Monday through Friday 8:00 a.m. to 3:30 p.m. Eastern Time (excluding major U.S. holidays).

2. Placing a Security Freeze on Your Credit File.

If you are very concerned about becoming a victim of fraud or identity theft, you may request a "security freeze" be placed on your credit file, at no charge. A security freeze prohibits, with certain specific exceptions, the consumer reporting agencies from releasing your credit report or any information from it without your express authorization. You may place a security freeze on your credit report by contacting all three nationwide credit reporting companies at the numbers below and following the stated directions or by sending a request in writing, by mail, to all three credit reporting companies:

Equifax

P.O. Box 105069
Atlanta, GA 30348-5069
<https://www.equifax.com/personal/credit-report-services/credit-fraud-alerts/>
(800) 525-6285

Experian

(888) 397-3742

TransUnion

P.O. Box 2000
Chester, PA 19016-2000

(800) 680-7289

In order to place the security freeze, you'll need to supply your name, address, date of birth, Social Security number and other personal information. After receiving your freeze request, each credit reporting company will send you a confirmation letter containing a unique PIN (personal identification number) or password. Keep the PIN or password in a safe place. You will need it if you choose to lift the freeze.

3. Obtaining a Free Credit Report.

Under federal law, you are entitled to one free credit report every 12 months from each of the above three major nationwide credit reporting companies. Call 1-877-322-8228 or request your free credit reports online at www.annualcreditreport.com. Once you receive your credit reports, review them for discrepancies. Identify any accounts you did not open or inquiries from creditors that you did not authorize. Verify all information is correct. If you have questions or notice incorrect information, contact the credit reporting company.

4. Additional Helpful Resources.

Even if you do not find any suspicious activity on your initial credit reports, the Federal Trade Commission (FTC) recommends that you check your credit reports periodically. Checking your credit report periodically can help you spot problems and address them quickly.

If you find suspicious activity on your credit reports or have reason to believe your information is being misused, call your local law enforcement agency and file a police report. Be sure to obtain a copy of the police report, as many creditors will want the information it contains to absolve you of the fraudulent debts. You may also file a complaint with the FTC by contacting them on the web at www.ftc.gov/idtheft, by phone at 1-877-IDTHEFT (1-877-438-4338), or by mail at Federal Trade Commission, Consumer Response Center, 600 Pennsylvania Avenue, NW, Washington, DC 20580. Your complaint will be added to the FTC's Identity Theft Data Clearinghouse, where it will be accessible to law enforcement for their investigations. In addition, you may obtain information from the FTC about fraud alerts and security freezes.

If this notice letter states that your financial account information and/or credit or debit card information was impacted, we recommend that you contact your financial institution to inquire about steps to take to protect your account, including whether you should close your account or obtain a new account number.

If your personal information has been used to file a false tax return, to open an account or to attempt to open an account in your name or to commit fraud or other crimes against you, you may file a police report in the city in which you currently reside.
