

2024 ENTERGY TEXAS SMALL VOLUME GREEN SELECT PRODUCT CONTENT LABEL¹

Entergy Texas, Inc.'s Green Select - Rider Small Volume Renewable Option Rider (Rider SVRO) is a Renewable Energy Certificate (REC) product and does not contain electricity. A REC represents the environmental benefits of 1 megawatt hour (MWh) of renewable energy that can be paired with electricity. For more information, see: www.green-e.org/rec.

Rider SVRO is sold such that it matches a fixed monthly percentage of your electricity usage (up to 499,999 kWh per month) with RECs. In 2024, Rider SVRO will be made up of the following re-sources:

Green-e® Energy Certified New ² Renewables in Entergy Texas		Generation Location
	%	
-Biomass	%	
-Geothermal	%	
-Hydroelectric ³	%	
-Solar	50%	Texas
-Wind	50%	Texas
TOTAL	100%	

1. These figures reflect the renewables that we have contracted to provide. Actual figures may vary according to resource availability. We will annually report to you before August 1 of next year in the form of a Historical Product Content Label the actual resource mix of the RECs you purchased.

2. New Renewables come from generation facilities that first began commercial operation within the past 15 years.

For comparison, the current average mix of resources supplying Entergy Texas in 2023 includes: Coal (5%), Nuclear (6%), and Natural Gas (58%). The remainder is made up through market purchases (~27%).

The average home in Entergy Texas during 2024 used 1,209 kWh per month.
