Brickyard Community Park

Just a 2 minute drive from Nanoose Bay Cafe

Brickyard got its name as it used to be home to a brick-making factory. There are bricks scattered in the area and hidden between the roots. Be sure to leave them at the park so all can enjoy them when they visit. This beautiful spot is an absolute gem for beach exploring. Just a short walk from the parking area you will find breathtaking views of the Coastal Mountains and you may see some sea lions that make this area their home. Be sure to wear proper water shoes when exploring the beach area as it is rocky and slippery.
