

Episode Synopses for October 2025

Feed Date	Episode #	Synopsis
10.08.25	#B-116	Brian presents the “Safe-D-Pet Monitor” a device that monitors pets in parked vehicles. Tyler presents the “E-Z Glide Sliding Rail Anchor” a safety device that keeps rail workers safe while they repair train tracks on bridges. Excitement mounts as Tyler and Team Einsteinsquare off against Brian and Team Edison to design and build a motorized Robo Artist in the big Invent-off Challenge.
10.15.25	#B-117	Isabella and Riley present their “Compawst Bin” a rugged compost bin designed to keep bears out. Connor and Spencer present their new “Biodegradable Plastic”. They hope their invention will help reduce the number of plastic grocery bags in landfill sites. Riley and Isabella lead Team Edison against Spencer, Connor and Team Einstein in the Invent-Off Challenge to see who can create the best Pet Habitat. But first, each team must compete to build a UFO in the mini challenge.
10.22.25	#B-118	Daniel presents his “Magnet Generator”, an environmentally friendly invention that uses magnets to charge bicycle lights. Meagan presents her “Solar Oven.” Meagan’s invention harnesses the power of the sun to cook food using no gas or electricity! Daniel leads Team DaVinci against Meagan who leads Team Newton in the big Invent-Off Challenge which requires that they create a solar powered Firefly Light. But first, the teams compete to build an egg Space Landing device in the mini challenge.
10.29.25	#B-119	Alex presents his amazing prosthetic the “Robotic Hand”. Mike presents the “Ice Ace,” a portable Zamboni everyone can use! Led by Alex, Team DaVinci squares off against Mike and Team Newton to see who can create the best motorized Dust Bunny in the Invent-off Challenge. But first, the teams build the chairs out of cardboard and cable ties in the Cable Tie Chair mini challenge.
