Little Parts. Big Difference. >>>

VISLON® Slim

Feel it in your hands, and you'll know the difference.

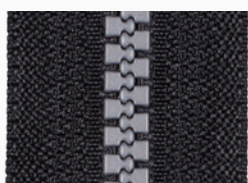

Flexibility

Slim elements and softer tape make the VISLON® Slim chain about 8.5 times softer.

*YKK original test method based on JIS-L-1096 8.21.4 (Heart loop method).

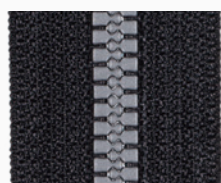

[Standard]

5VS (Item Code)

[Slim]

5VH (Item Code)

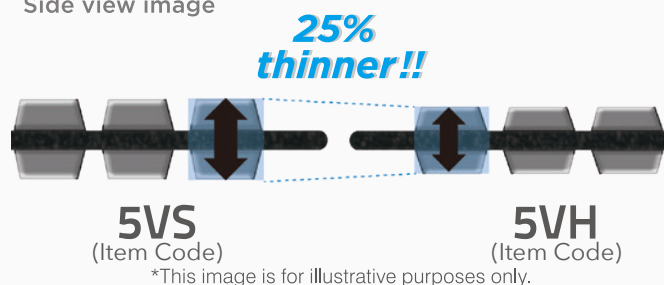

*Items in pictures are actual size.

Low Profile

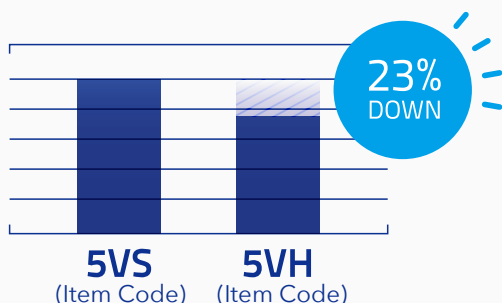

Zipper elements are 25% thinner.

Side view image

Lightweight

Zipper chain weight is about 23% lighter.

Availability

Size	Chain type	Close	Open	Two-way
3	VH	OK	—	—
5	VH	OK	OK	OK

Instruction For Use

- Zipper strength is lower than 5VS.
- Do not use this product for luggage/bags and shoes.
- Do not use this product on heavy garments.
This may result in loss of zipper strength, and in some circumstances cause breakage.
- Ensure product is completely closed when placing into a washing or drying machine. A partially closed zipper may become entangled with other items; resulting in damage to element, slider or other components.
