C2V X-EDGE PRO 4308S18

X-EDGE PRO, High Viz Orange, 18 Gauge Engineered HPPE Sleeves, Hook & Loop Closure at the Bicep, Thumb Slot, ANSI Cut Level A6.

1 Pair per Vend Pack

■ Features:

- Cut Resistant - ANSI A6 Cut Resistance for high-performance cut protection.
- Hook and Loop closure:
 - » Provides an adjustable fit for secure placement during movement,
 - » Fast donning via its quick release design,
 - » Reduces sleeve slippage ensuring the sleeves stay in place.
- Thumb Slot:
 - » Anchors the Sleeve in place,
 - » Improves Stability and Comfort.
 - » Allows seamless layering with gloves,
 - » Ensures protection consistency by ensuring the sleeve stays exactly where it is supposed to.

■ Sizes Available

- 4308S18L LARGE

■ Description:

The X-EDGE PRO™ 18-Gauge Hi-Viz Cut-Resistant Sleeve is engineered for workers who need premium mobility without compromising protection. Built with advanced engineered HPPE yarn, this PRO-level sleeve delivers a smooth, flexible feel while maintaining ANSI Cut Level A6 performance against sharp edges and high-risk materials. The hi-viz orange knit boosts visibility and clearly distinguishes the PRO tier on the floor. An integrated thumb slot keeps the sleeve anchored during repetitive or overhead tasks, while the adjustable hook & loop bicep closure ensures a secure, personalized fit that stays in place all shift long. Ideal for metal fabrication, automotive assembly, glass handling, aerospace, and other demanding industrial environments where comfort and protection must work together.

ANSI/ISEA 105

■ Industries/Applications:

- | | |
|---------------------|------------------------|
| • Manufacturing | • Handling Sheet Metal |
| • Metal Fabrication | • Glass Handling |
| • Automotive | • Fabrication/Assembly |
| • HVAC | • Waste Processing |
| • Waste Management | • Handling Ductwork |

Warning: Cancer and Reproductive harm.
