

MICHIGAN'S LEADER OF DESIGN BUILD CONTAINERS

DESIGN, BUILD CREATIVE CONTAINER STRUCTURES

- Blox was founded on the idea of re-use, recycle, and re-purpose, our goal has always been to take used shipping containers and create a second life for them along with creative architecture.
- During that process, we continue to discover and create endless possibilities where container construction can excel all while integrating trend setting architecture, unique design, and container utilization to its full extent.
- Blox has developed a process of integrating years of industry leading experience along with your ideas to bring new life and pioneer designs for residential and commercial construction.
- We continue to work with and guide many municipalities to help them understand cargo architecture as a new and innovative option in the construction industry. We invite you to embark in the Blox experience, let's make your dream a reality!
