

**FUTURE READY**  
CAREER & TECHNICAL EDUCATION

Spotlight

## COLLABORATIVE PARTNERS

Faribault High School Family & Consumer Science partnered with Kids World and Little Scholars Academy to develop a childcare simulation that utilized RealityWorks babies to learn skills needed for childcare in early childhood work environments.

## STUDENT IMPACT

in 2025, over 50+ students enrolled in Early Childhood Development class in Faribault had the opportunity to experience the childcare training curriculum and hands-on activities (e.g. Reality Works babies) These hands-on resources helped teachers grow the class and provide practical skills for their students..

### Childcare Training

*"Childcare is always a need in our community. Since our first visit to the Little Scholars Academy in 2024, we have seen growth. They will continue to need people to care for the children that come every day".*

-Kaylee Wiens, FCS Teacher

**Future Ready CTE  
Impact Grants** are made  
possible through  
Legislated appropriated  
funding to Service  
Cooperatives in  
Minnesota.

For more information  
about the Future Ready  
CTE Impact Grants,  
contact:

**Kim Mueller**  
Regional CTE Coordinator  
[kmueller@mncscsc.org](mailto:kmueller@mncscsc.org)

The purpose of these  
grants is to help rural  
school districts  
connect with their  
local employers to  
provide quality,  
authentic career-  
connected learning, to  
make ***lasting*** impact  
throughout the region.
