

FUTURE READY
CAREER & TECHNICAL EDUCATION

Spotlight

COLLABORATIVE PARTNERS

St. Peter High Schools Family and Consumer Science teacher partnered with local college, Gustavus Adolphus, to provide tours of their well-known dining services. The college also provided classroom speakers and hands-on demos.

STUDENT IMPACT

96 students were enrolled in the Culinary Arts class at St. Peter High School in spring of 2025. By using Kitchenaid mixers, students had access to top-tier culinary education to give them a competitive advantage in the culinary industry.

Culinary Arts

Cooks and food service workers are two jobs in high demand in the St. Peter community. Giving students knowledge and experiences equips them for success in these areas.

St. Peter FACS teacher, Courtney Shoemaker, consistently shares information about the culinary arts program at South Central College, to help students continue their learning in the industry in the post-secondary setting.

**Future Ready CTE
Impact Grants are made
possible through
Legislated appropriated
funding to Service
Cooperatives in
Minnesota.**

The purpose of these grants is to help rural school districts connect with their local employers to provide quality, authentic career-connected learning, to make ***lasting*** impact throughout the region.
