

Construct Tomorrow is an immersive, hands-on event that introduces high school students to real careers in the construction and building trades. Through interactive experiences and direct conversations with skilled tradespeople, students discover what it's really like to work in these high-demand, high-reward industries.

Since 2013, Construct Tomorrow has connected over 70,000 Minnesota students with life-changing opportunities in the union construction trades-offering a powerful alternative to traditional four-year college paths.

At the event, students will:

- Use real tools to complete hands-on activities from various trades
- Meet and learn from diverse professionals actively working in the field
- Explore competitive wages, benefits, and career pathways in the trades
- Gain insight into how registered apprenticeships work-and how to get started

Whether your students are already curious about the trades or just beginning to explore their options, Construct Tomorrow offers a fun, eye-opening experience that could shape their future.
