

# INSURANCE SERVICES

## Who We Are

The South Central Service Cooperative (SCSC) health insurance pool programs and services are member-owned and managed. Participants in our pools manage their own health insurance plans for the benefit of their participating members.

SCSC collaborates with six other service cooperatives in an organization called the Minnesota Health Care Consortium (MHC), which is dedicated to achieving statewide economies of scale when negotiating the purchase of health insurance services.

Through this partnership, SCSC and MHC regularly evaluate and select high-quality insurance programs that best meet their members' evolving needs. These pooled programs are designed to offer flexibility, allowing employers to choose benefit designs and provider options that work best for their organizations, while also promoting employee satisfaction and overall well-being.

## Why Participate in a SCSC Insurance Pool?

### South Central Service Cooperative's insurance pool features:

- Access to a wide range of health care providers; including Mayo Clinic
- Professional health support and self-care education
- Member healthcare savings account services
- Wellness reimbursement program
- Virtual care alternatives
- Reduced administrative charges

### Health plan management services include:

Group coordinators to help conduct open enrollment meetings, presentations and individual consultations.

Annual renewal review with the guidance of internal insurance and underwriting expertise.

Health insurance pool members are invited to employee benefits seminars.

Groups can access health promotion (wellness) program development and interactive client reporting.

Groups can access consumer account administration at below market rates for FSA, VEBA and HSA.

Groups can access an employee assistance program.
