High STEP Health Science Academy

A program of SCSC

BENEFITS TO STUDENTS

- Explore careers in Health Science first-hand (e.g. job shadow, field trips, career fairs).
- Learn core Health Science skills needed for all levels of Health Science occupations.
- Gain leadership skills and network with current and emerging Health Science professionals.
- Improve your Math, Science, and Communication skills.
- Make realistic career decisions and seek successful work or post-secondary training.
- Understand current Health Science issues, environmental concerns, and survival needs of the nation and world.
- Provides concurrent enrollment and on-site lab and clinical experience.
- Become a member of HOSA Future Health Professionals.

BENEFITS TO INDUSTRY PARTNERS

High-STEP will:

- Increase the number of young people choosing a career in Health Science.
- Provide a link between education and business to address similar current and future needs.
- Excite and retain students in high shortage occupations.
- Provide strategies to strengthen the essential skills and core Health Science skills needed for post-secondary training or employment in Health Science settings.
- Assist partners to create proactive ways to address future Health Science and educational needs at the local, state, and national level.
