AUDIOLOGY REFERRAL REQUEST FORM

Audiology screenings and evaluations are provided throughout the school year by the educational audiologists, determined on a case-by-case basis. *The evaluations and screenings are completed at the discretion of the educational audiologists.* The educational audiologists may conduct another screening at the student's school (utilizing more advanced screening methods) to determine the most appropriate action (i.e., if a student has a type "B" tympanogram, the parent may be contacted to discuss follow-up with the student's pediatrician *rather* than a comprehensive audiological evaluation).

- ★ *Are you a school nurse wanting to refer a student following their second failed hearing screening?*
  - *If so, complete the following form: https://forms.gle/5RNSCjhFQA8Ce81B7*
    - ***Are you a school nurse that is new to your position? We encourage you to check out some resources: https://drive.google.com/drive/folders/1r4znRQjOxrI-0JR7zWATuwIE7O1C3f9u?usp=sharing***
      - *School Nurses - Hearing Screening Onboarding.*
- ★ *Are you an early childhood professional and wanting to refer a child (B-5) following their second failed hearing screening?*
  - *If so, complete the following form: https://forms.gle/oZ6FdEsqpPQWMGs77*

After completing the form, the audiologists will contact you shortly about your request and set up a time to come to your school if applicable. The audiologists may reach out about scheduling the screening at a school in the "home district" in B-5 kiddos, rather than having the parents travel to our office (*depending on where the child lives this may be easier*). If test results indicate a referral is recommended, a form will be completed by the audiologist and can be sent home with the child. The family may contact the audiologist at SCSC if there are any questions regarding the results.

If you have questions, please contact the educational audiologists: Dr. Salmon, Au.D., CCC-A at msalmon@mnscsc.org, or Dr. House, Au.D., CCC-A at ahouse@mnscsc.org.
