Investerra – financing platform for renewable energy projects

investerra

Our business model

We finance – simple, tailored and attractive

- **High impact** through targeted financing of small to medium-sized projects
- **Support for decentralised energy solutions with local production and local consumption** such as solar parks, BESS and district heating networks
- **Replicability with local anchoring** through blueprint solution for municipalities, for example
- **Scalability** through standardised processes, technology and strong specialist partners

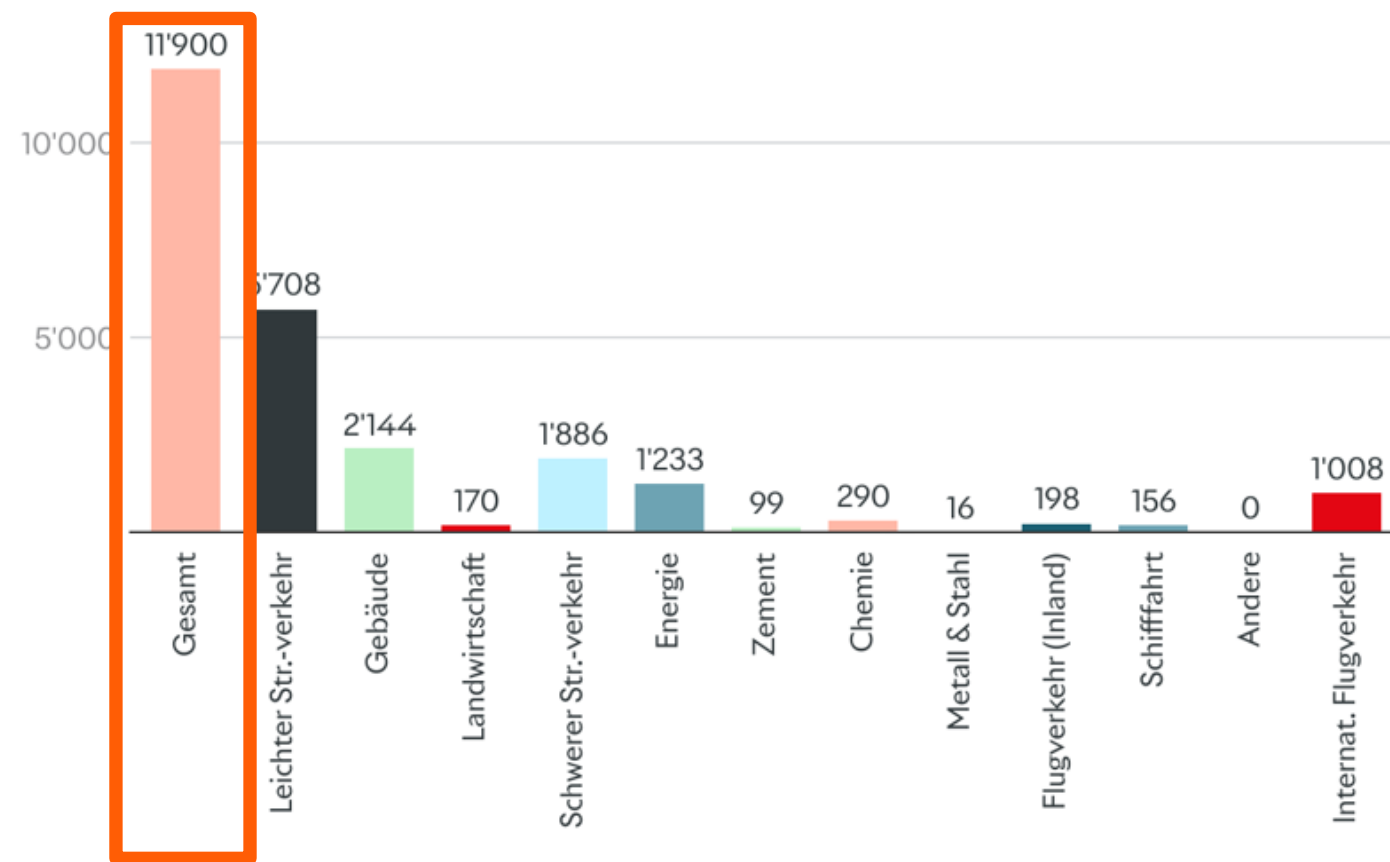

Climate change is a financial problem

Local financing for local installations - for Switzerland's climate targets

CHF 12.9bn investment requirement per year

Schweizer Netto-Null-Investitionsvolumen, 2020-2050, in CHF Mio. p.a. Schätzung auf Basis von sektorspezifischen Massnahmen

Hinweis: Die Verteilung der Investitionen über die Zeit basiert auf Annahmen über die Innovations- und Preisentwicklung der relevanten Technologien in der Zukunft.

The foundation of our strategy

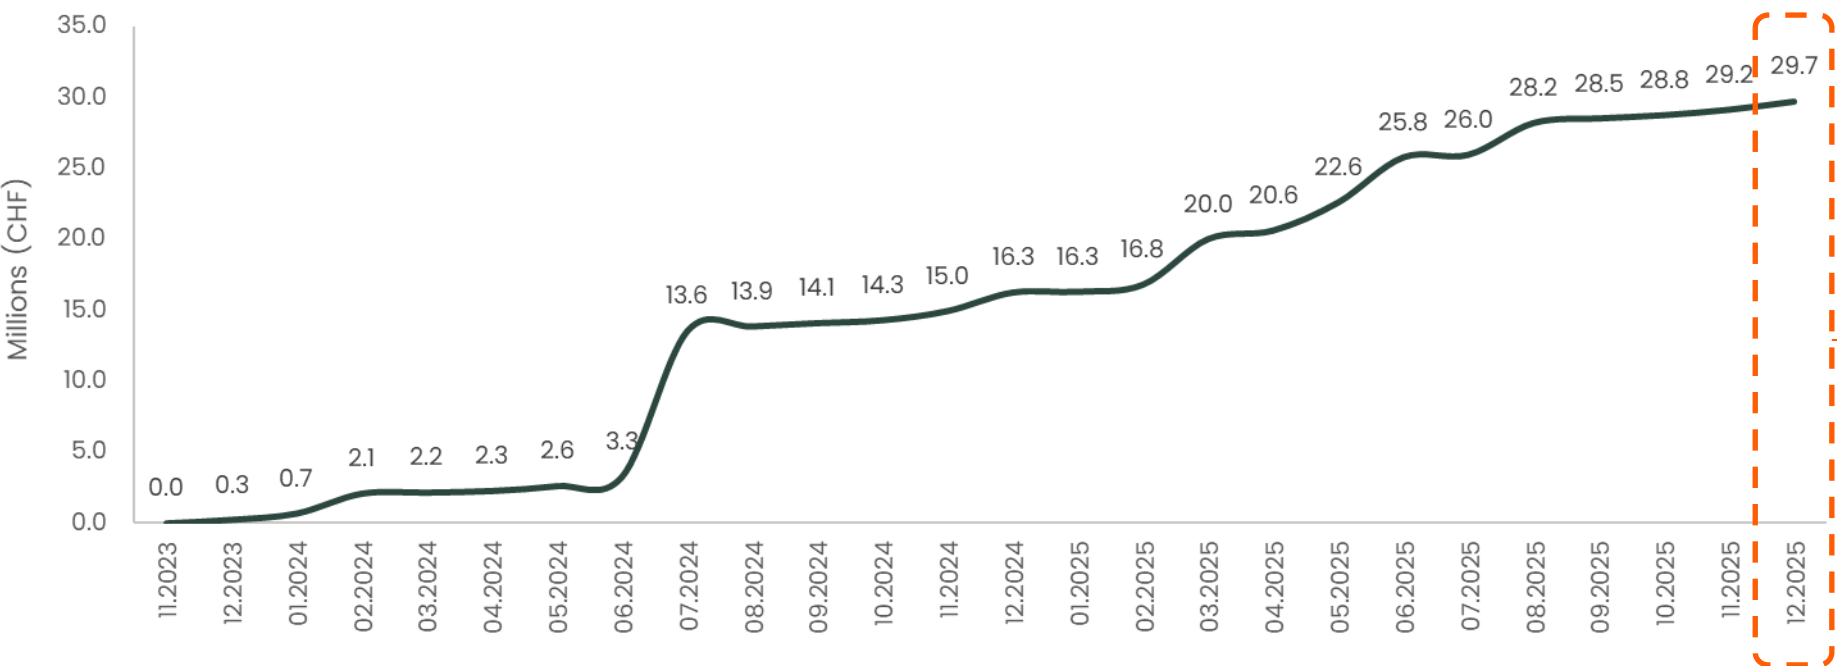

- Measurable environmental and social impact: **34 kt CO₂ saved, 823'583 kt planned by 2028***
- Infrastructure financing focused on renewable energy and real projects
- Collateral provided (e.g. assignment)
- Scalable and replicable investments with a national specialist partner network and direct sales

*Projection according to model (validation pending)

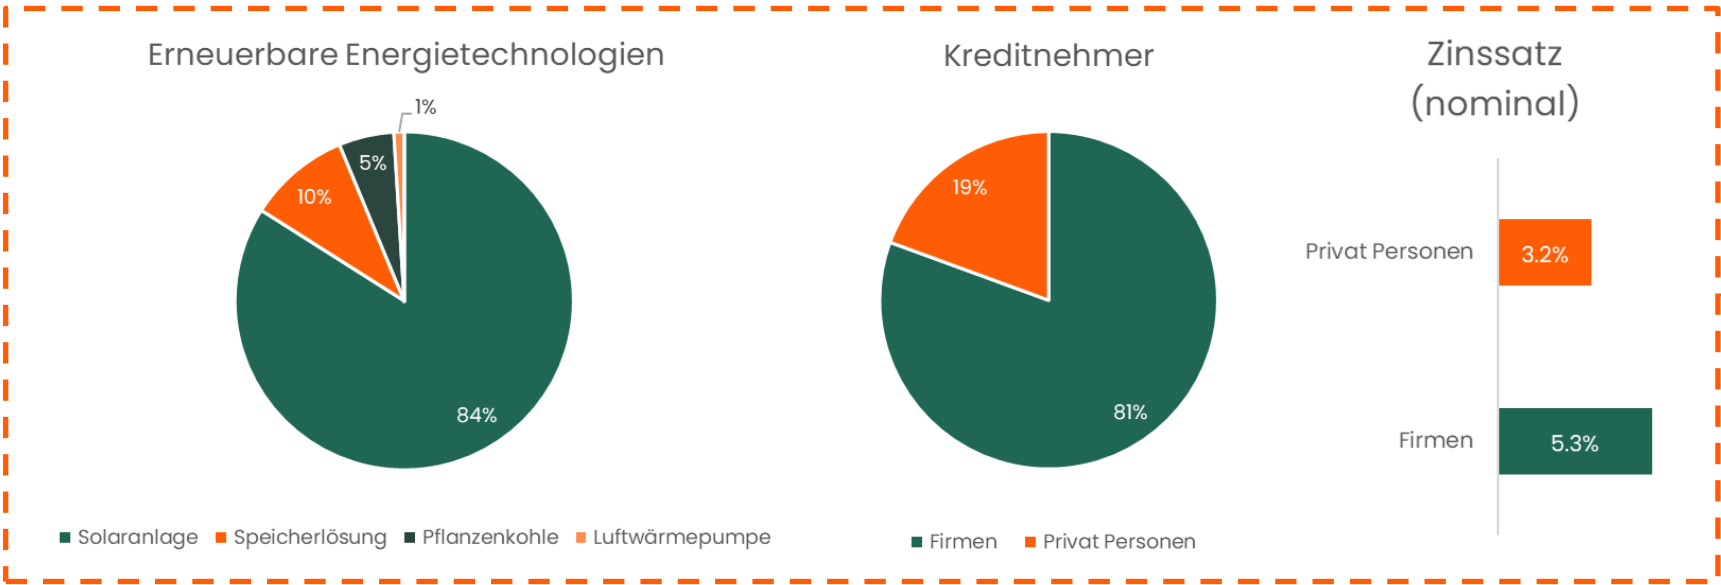

Which technologies are financed? Diversification across the number of projects

Over CHF 80m in the pipeline

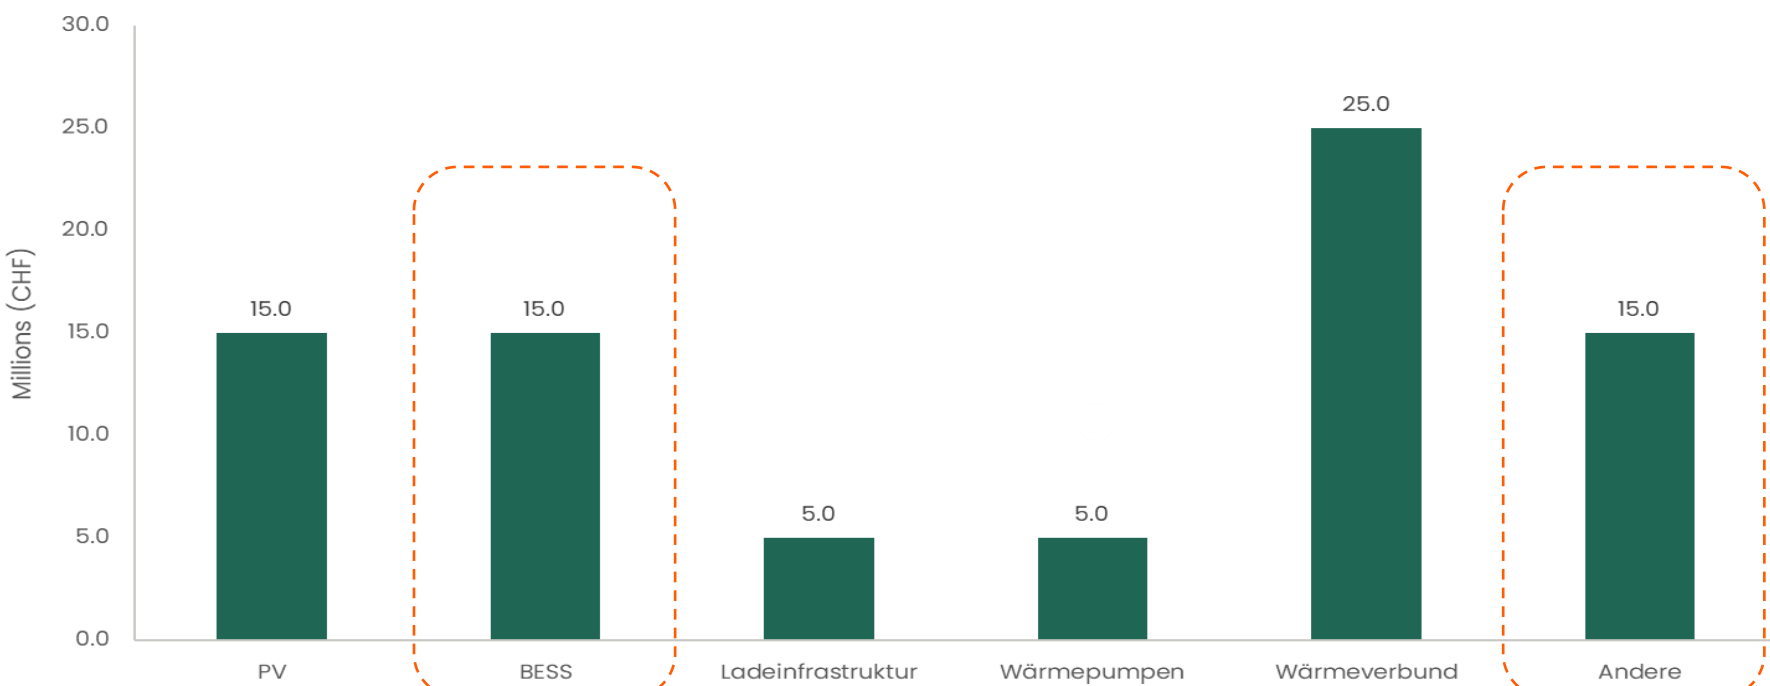

Since 12/2023, we have financed almost CHF 35m and around 200 projects
Finanzierte Projekte

So far, many PV projects with an average of CHF 50k for private customers and CHF 155k for business customers

500 new project enquiries for financing totalling well over CHF 80m are available as of 12/2025

BESS projects (CHF 5.0m)

Balancing market Peak-shaving

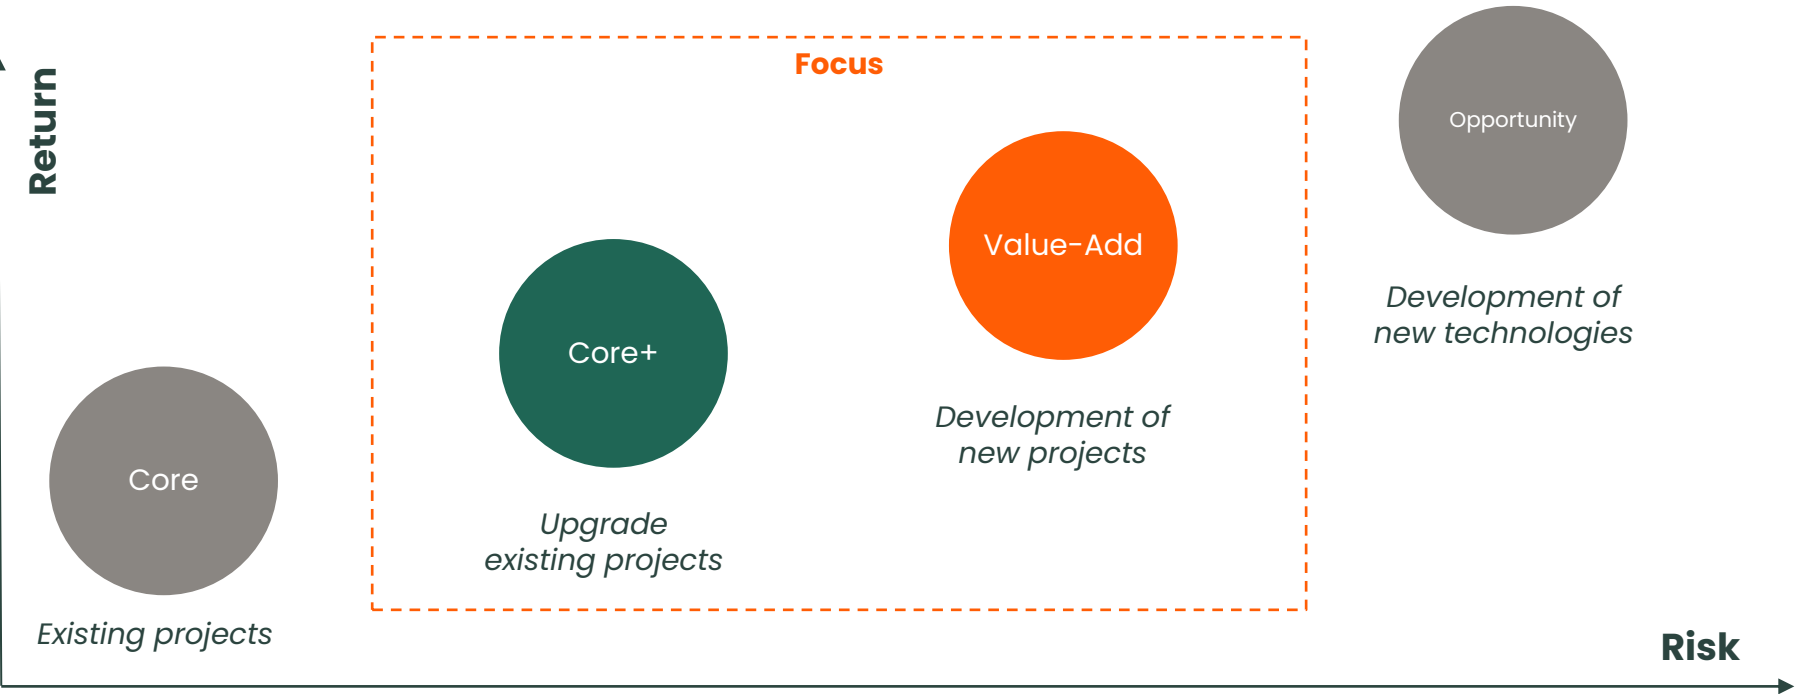

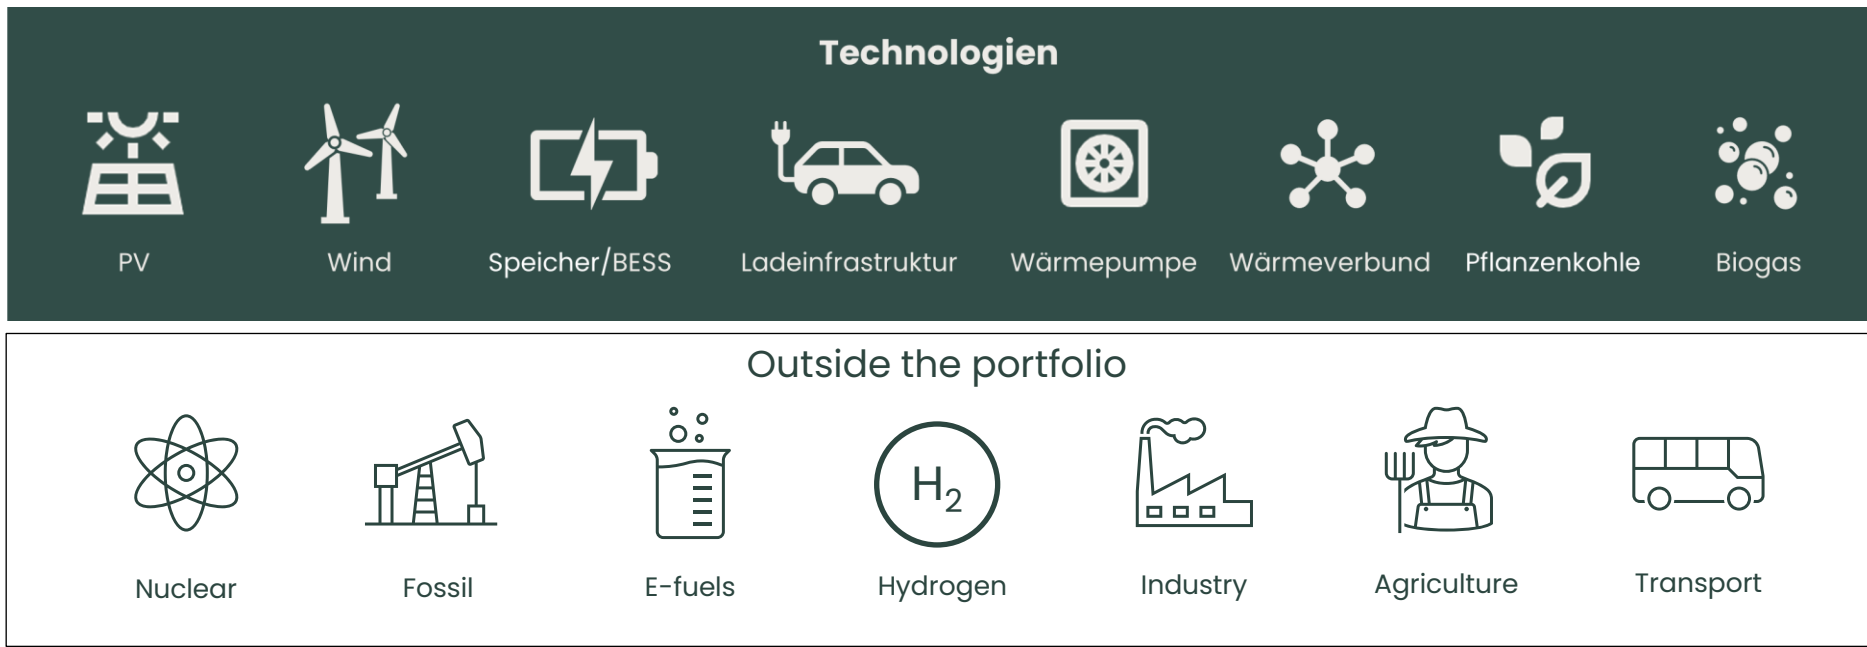

Biomass projects (CHF 1.5 – 8.0m)

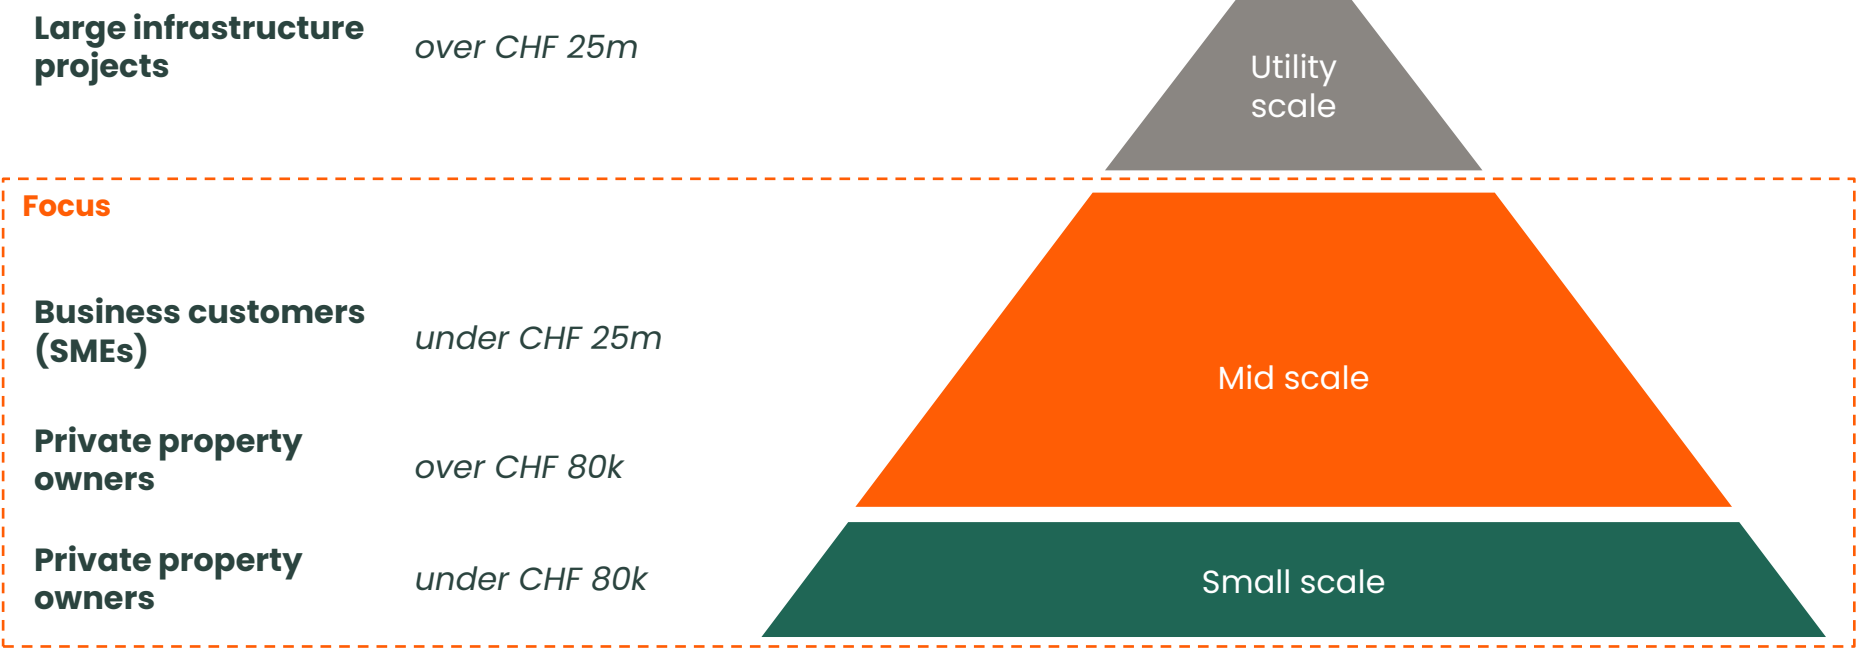

Biochar Biogas

Promoting renewable energy – local, effective, measurable

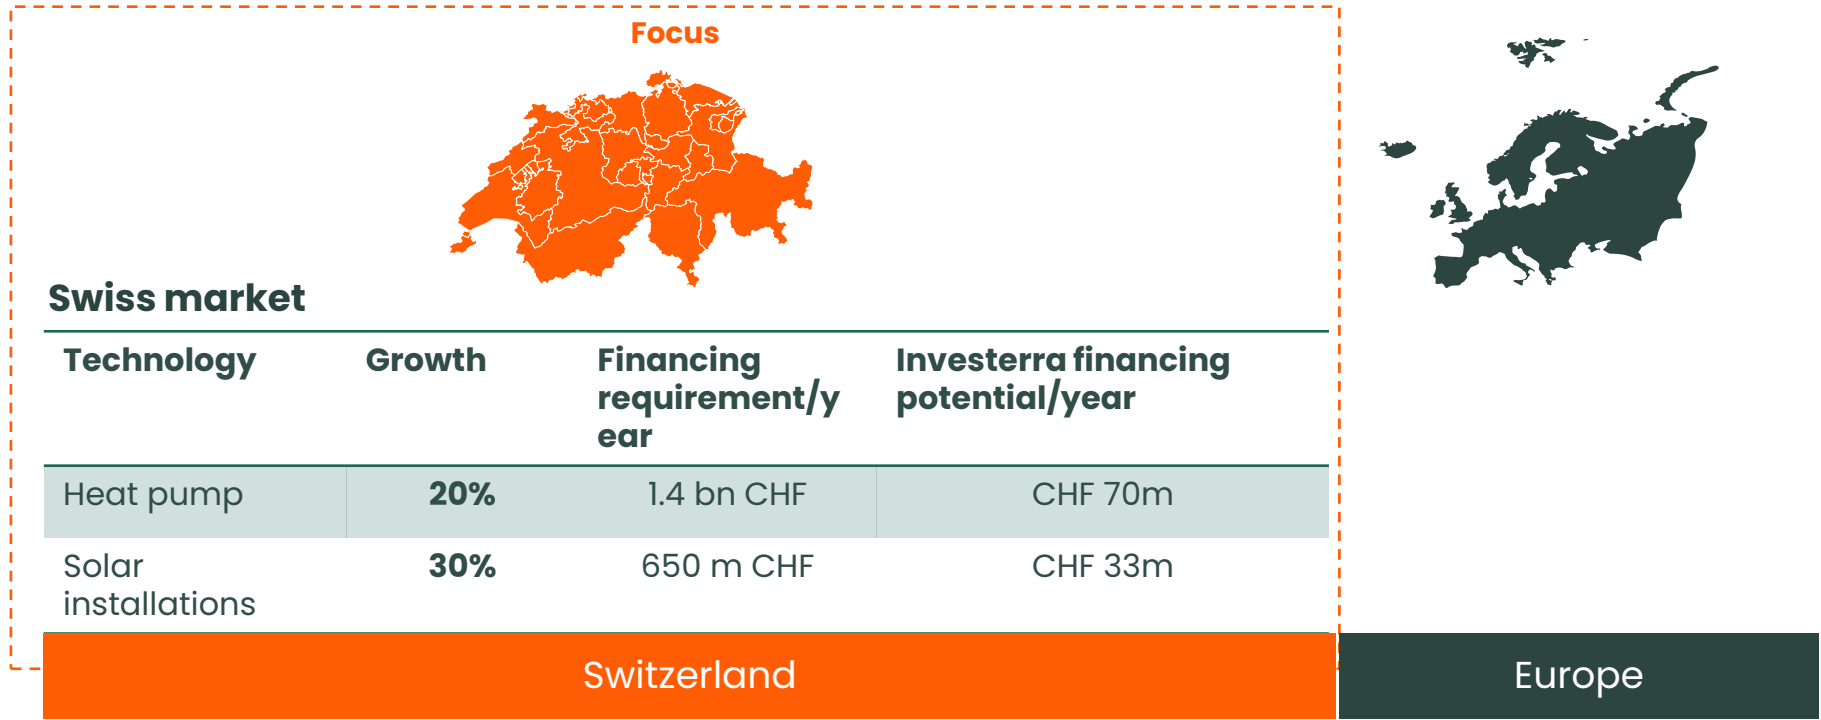

Investerra Green Bond Framework

Small and medium-sized Swiss infrastructure projects

Geographic focus and target markets
