- I approve this application and agree to support the schools' academic program and attendance requirements for my child.
- I understand the AgriScience Program requires a Supervised Agricultural Experience and membership in the FFA (*see below*).
- I understand that due to the organizational nature of the program, field trips and hands-on experiences are integral to the overall program and the importance that all students are actively engaged with these opportunities and unique learning experiences.
- I request the release of my child's complete academic and records to The NERSBA Early College. Such records include, but are not limited to, course grades, standardized test scores, IEP and/or PPT records, attendance records, school health records and any other appropriate information deemed necessary by The NERSBA Early College.

WORK EXPERIENCE

(SUPERVISED AGRICULTURAL EXPERIENCE)

Supervised Agricultural Experiences are an integral part of the total program of agriscience and biotechnology. Students are expected to secure meaningful educational experiences that will help them develop the skills and knowledge that articulate with the academic agricultural education program. The SAE Component is a promotion requirement at NERSBA.

THE FFA ORGANIZATION

All students enrolled in the Biotechnology and AgriScience Program are active members of the FFA. This is a national organization of students studying agriscience and biotechnology, which has local, regional, state and national levels of educational experiences. The primary goals of the FFA are to assist in the development of leadership, citizenship, communication, and cooperation within its membership. The organization is co-curricular and is integrated into the overall agriscience and biotechnology curriculum. NERSBA FFA student meetings are conducted at school on a monthly basis. Numerous activities are organized by and for FFA members throughout the school year.
