REAL ESTATE

A New Home for DTLA Nissan Infiniti

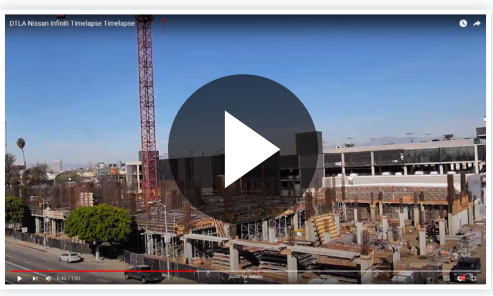

Seven Years in the Making

New Nissan Infiniti High-Rise

Due to this building being a high-rise, the Real Estate team had to overcome a number of hurdles related to permits and safety requirements and now, Lithia & Driveway can proudly display the result of their hard work.

"We have had an extremely talented, organized and well managed team from the start," said Kristy Camero, Lithia & Driveway's Construction Project Engineer and Platform Advisor, who has worked on the project since 2019. "The team's focus has been to provide a quality product for DTLA Nissan – one that Nissan Infiniti Corporate has supported and is excited about.
