

From Showroom to Charging Station: How Lithia and GreenCars Are Powering the EV Future

Across Lithia and Driveway, teams are taking the wheel of the EV transition. From Detroit to Dallas, employees are training, learning, and connecting customers with the latest in electric mobility. This month, Suburban Collection hosted an intensive EV Summit, while GreenCars prepares to take center stage at Electrify Expo Dallas. Every event, every conversation, and every customer helped along the way adds up to one mission: empowering the future of driving.

FEATURED STORIES

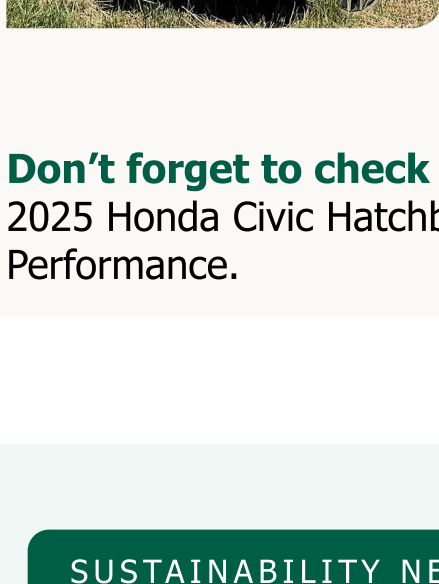

Use these links and pre-written captions to help spread the word across your own social networks.

Global EV Sales Keep Growing

The United States is seeing record sales for plug-in hybrids and electric vehicles – in part because the EV federal tax credits have flown to the coop. Despite that, global EV sales continue to grow and are predicted to reach 27 million units sold by 2026.

SUSTAINABILITY NEWS

Where We're Going

Lithia Motors continues to advance its sustainability goals in many exciting ways. We are adding DC Level 3 EV chargers, switching to LED lighting, installing onsite solar panel arrays, and more.

- **1,454 total ports** across Lithia, including **179 Level 3 chargers**
- The Energy Efficiency team recently completed a lighting gap analysis and identified **LED upgrade opportunities** at about 30% of our dealerships to **improve efficiency and lower energy costs**
- Toyota of Torrance solar systems are now online, marking the first end-to-end completion of an on-site solar install. In their first week, **the solar systems offset nearly 150%** of the store's electrical consumption
