

American Dream Sticker Shock

What the American Dream costs today, added up line by line, and how families can still get it. This kit gives you everything you need to share it and turn it into conversations.

Where to find it: WealthWaveONE → **Collections** → **American Dream Sticker Shock**. Every item below is in that collection.

Good to know

My page doesn't show my name or goes to the main site.

Your WealthWave website needs to be turned on in WealthWaveONE. Your page uses the name, photo, phone, WealthWave email and scheduling link from your WealthWaveONE profile, so keep them current. They also print on the back page of every copy downloaded from your page.

Where do my leads go?

Straight into WealthWaveONE → Contacts as prospects, with the download listed in their activity. If you use Email Marketing, they're also tagged **sticker-shock** so you can follow up on them as a group.

Can I send the PDF itself?

You can, but share your page instead. It's the only way their copy carries your contact page and the lead comes back to you.

Someone downloaded it from the main site.

Downloads from wealthwave.com/sticker-shock (with no name in the link) go to the WealthWave team. Always share your personal link.

Can I share the flipbook?

Yes, for a quick look or a social post: online.fliphtml5.com/zrtoa/zawy (Spanish: online.fliphtml5.com/zrtoa/ovfc). It's the same book for everyone, so it doesn't end with your contact page and readers don't become your leads. For the lead, share your page.

Is there a Spanish version?

The eBook, the flipbook and the presentation are in Spanish: *Sueño Americano: El impacto del costo*. The webpage and the podcast are in English only.
