AMERICAN DREAM STICKER SHOCK

THE CAMPAIGNS YOU RUN. THE TEAM YOU BUILD.

The campaign that shows people what really happened to the American Dream, and everything you've got to run it.

> **"The main difference between you today and you five years from now won't just be the books you read. It'll be the campaigns that you run, and ultimately, it'll be the team that you build.**

WHY THIS CAMPAIGN MATTERS TO YOU

Campaigns build teams. The team is the goal.

Building a team in a model like ours is how you switch from producing income to overriding income. That's ultimately the goal of every leader who starts here.

And saying yes to entrepreneurship means saying yes to campaigns. A campaign expands your reach past the people you'd talk to anyway, so you can build something bigger than you were on track to build. That's how a team starts.

American Dream Sticker Shock is that campaign. It shows people what's really happening to their money right now, and what they can do about it.

YOU CAN'T WISH YOUR WAY TO THE TOP

Wishing won't get you to the top, in a corporate job or in a business. Tom says building a business takes four things:

1. **A system** to follow
2. **A big enough problem** to solve
3. **Mentors and leaders** to coach you through it
+ **Hard work and passion** from you

This campaign hands you number 2: the problem. And it's a big one.

THE PATH THIS CAMPAIGN OPENS

From student, to client, to entrepreneur.

Everyone your campaign reaches can walk this path. The ones who become entrepreneurs join your team.

Student
Learns why money feels so tight, and how money really works.

›

Client
Puts it to work for their own family.

›

Entrepreneur
Helps other families do the same, and builds a team.

> **"Think about what happens if you go from being a student, to being a client, to being an entrepreneur. That changes everything.**
>

WHAT PEOPLE ARE FEELING

They're not imagining it. There is a pinch.

This campaign is going to open a lot of people's eyes. It puts a number on what they feel. Tom added up what the American Dream costs a year today, line by line: a home, groceries, a car, healthcare, college, retirement, taxes and a little fun.

$81,604
What the typical U.S. household earns. The Dream costs more than twice that.

+$44,172
How much more the same Dream costs a year than it did a decade ago ($130,357).

Why so many families feel stuck

This built up over ten years, so it isn't one political party's doing or one region's. It's pretty much the whole country. Many families got caught three ways at once:

1. **Prices climbed.** Inflation raised the cost of nearly every line on the receipt.
2. **Paychecks didn't keep up.** Incomes didn't rise enough to offset how expensive things are now.
3. **They missed the upside.** Many didn't have enough in the stock market to benefit from its rise.

So it's very predictable why people feel the way they do. Tom's answer to all of it: entrepreneurship.

Extra income can cover the bills that went up, or go into savings. Grow it into a business, and it can let you say yes to your family instead of no.

The eBook:
American Dream Sticker Shock, 2027 Edition

The full 32-page book by Tom Mathews: what the Dream costs, why families feel stuck, and how they can still get there. After the podcast, read it so you know it cold.

When someone downloads it from **your** page, their copy ends with **your photo and contact details**. That's why you share your page, not the PDF file.

Also as a flipbook that pages through in the browser: online.fliphtml5.com/zrtoa/zawy. Use it for a quick look or a social post. It's the same book for everyone, so for the lead, share your page.

WHAT HAPPENS WHEN SOMEONE DOWNLOADS IT

1

They fill a short form
Name, email and an optional phone, on your page.

2

They get your copy
The download starts, and we email them the link, signed by you.

3

You get the lead
They're added to your WealthWaveONE Contacts as a prospect, and you get an email alert.

4

You follow up
Reach out within a day or two, while it's fresh.

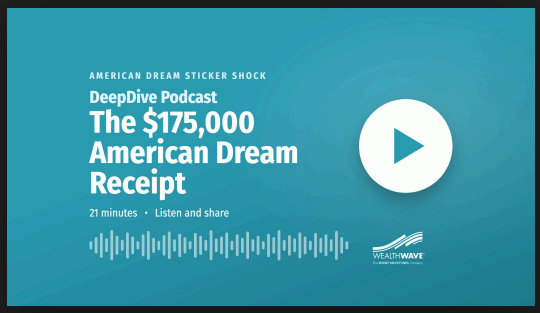

Before you share: turn on your WealthWave website in WealthWaveONE, then copy your exact link from the **Your Sticker Shock Webpage** item in the kit. The **your-name** part is your WealthWave website address, which may not be spelled like your name, so don't guess. A link without it (wealthwave.com/sticker-shock) sends the lead to the WealthWave team, not to you. Your page uses the name, photo, phone, WealthWave email and scheduling link from your WealthWaveONE profile, so keep them current.

03 · THE PODCAST · DO THIS FIRST

First, listen to it yourself. Turn on your inner crusader.

Before you share anything, put on the podcast. Let it fire you up about what you have in front of you, and what this could do for the families you know. When you're fired up, it shows in every message you send.

Then share your page, not the audio file. The podcast plays right at the top, so people who will never read 32 pages can just press play.

DeepDive Podcast: The $175,000 American Dream Receipt

21 minutes. Plays at the top of your webpage. An AI-generated audio overview of the book, created with Google NotebookLM.

04 · THE PRESENTATION

Tell the story in the room, or on a call.

Keep this. Read it again. Not everybody goes into WealthWaveONE and figures this all out. They should, but they don't. So it's all here in one place, and somewhere in it is the piece you almost missed.

Five years from now, the difference will be the campaigns you ran. This is one of them.

It's exciting. Let's do it.
