

mechanical

- Heating & chilled water systems
- Ventilation & ductwork
- Comfort cooling & air conditioning
- Pipework & plant room installations
- Mechanical plant maintenance

electrical

- Lighting & power distribution
- Emergency lighting & backup systems
- Fire alarm & detection systems
- Data & communication networks
- Electrical testing & certification

maintenance

- Planned Preventative Maintenance (PPM)
- Emergency call-outs & fault diagnosis
- System health checks & optimisation
- Asset lifecycle management
- Compliance testing & reporting

About Us !

M&E Design and Build has established itself as a leader in the UK's contracting industry, specializing in comprehensive mechanical, electrical, and renewable energy solutions. Since its inception in 2013, the company has demonstrated a commitment to excellence through its end-to-end project support, encompassing everything from initial design and specification to installation, maintenance, and upgrades. Boasting a robust in-house engineering team, M&E Design and Build has successfully completed over 140 projects, underscoring its reliability and expertise. The company prides itself on fostering long-term partnerships with clients, built on the pillars of quality, trust, and performance, making it a trusted partner in delivering sustainable and efficient solutions.

Our Process

Step 01

Consult & Design

We listen, survey, and engineer tailored M&E solutions based on your building's needs and project goals.

Step 02

Install & Deliver

Our expert engineers carry out installations to the highest standard, with safety, compliance, and performance at the core.

Step 03

Maintain & Support

We offer planned and reactive maintenance to ensure your systems run efficiently long after project handover.

Vision

Our vision is to become the UK's most trusted provider of integrated M&E and renewable energy solutions—raising the industry standard through innovation, service quality, and sustainable performance. We aim to lead the shift toward smarter, cleaner, and more efficient building systems across commercial and industrial spaces.

Mission

At M&E Design and Build, our mission is to deliver reliable, energy-efficient, and cost-effective mechanical and electrical solutions tailored to the unique needs of every client. From concept to completion, we are committed to technical excellence, client satisfaction, and building long-term value across every project we deliver.
