

How does it work?

The Cells

1 Cell=1 Night

The “Cells” are DanceHive’s Currency, meaning that a Dancer will “spend” Cells in order to be hosted and will “gain” Cells whenever offering hospitality to a fellow dancer. This system is aimed at promoting equal exchange and propelling collaborations. In case Dancers are unable to host, they can purchase Cells through the platform, at a symbolic price. If I host as much as I’m being hosted, I use the platform for free

Partners

Our Partners are Dance Companies, Schools, Festivals and Events, that want to benefit from our vibrant community, and have therefore purchased in advance a number of Cells that they are able to offer to dancers that wish to take part in their events, so they can accommodate for free through DanceHive.

Prizes

Users that host and have therefore gained of Cells, can redeem exclusive prizes offered by our Partners and Ambassadors, such as tickets to dance performances, discounts to their dance events, dance apparel, and much more.

DanceHive's core

Problem

The idea for DanceHive emerged from the founders' personal experience, as passionate dancers, frequently facing challenges in finding affordable and safe accommodation while traveling for auditions, workshops, and performances.

Solution

Recognizing the lack of a reliable support system for dancers on the move, they were inspired by the models of home-sharing platforms.

Product

DanceHive was born in December 2023, it is a platform tailored for the dance community, addressing travel challenges and promoting solidarity, cultural exchange, and shared growth. The founders' firsthand experiences and understanding of dancers' needs were the driving forces behind DanceHive's development.
