PRODUCT SHEET

STALICO® Container Lighting

5 m light mast that mounts on any ISO container

Container Lighting mounted on a site container

STALICO® Container Lighting is fixed into the two standard ISO corner castings of a container. One person with a small stepladder sets it up easily. The structure is made of hot-dip galvanised steel and aluminium and is therefore weather-resistant. As standard it carries two powerful 150 W LED MATRIX lamps and operates on 230 V.

BENEFITS

- Fits the standard ISO corners of any container
- Only 23 kg — set up by one person
- No ground space or ballast needed
- 2 × 150 W LED MATRIX lamps
- Galvanised steel and aluminium

TECHNICAL SPECIFICATIONS

Height	5.0 m
Weight	23 kg
Mounting	2 standard ISO container corners
Lighting	2 × 150 W LED MATRIX
Power supply	230 V
Materials	Hot-dip galvanised steel and aluminium

APPLICATIONS

- Construction
- Events
- Gas, oil & mining
- Emergency lighting
- Military

IDEAL FOR site cabins and container camps — instant lighting without a separate mast on the ground.
