

STALICO® CO² Neutral Eco Light 8.5 m

Battery light mast – up to 50 hours silent and emission-free

Eco Light extended to 8.5 m

The STALICO® CO² Neutral Eco Light is our most sustainable light mast. It lights your site without generator, refuelling or mains supply – autonomous and silent. With a battery bank of e.g. 720 Ah 48 V it provides up to 50 hours of autonomy. The innovative light mast container can be moved, stacked and lifted, is very stable and is set up by one person.

BENEFITS

- No generator, no fuel, no grid needed
- Up to 50 h autonomy (e.g. 720 Ah 48 V)
- Silent and emission-free
- Set up by one person
- Stackable per 2 · winch lockable with padlock

TECHNICAL SPECIFICATIONS

Mast height	Telescopic, adjustable 2.5 – 8.5 m
Lighting	4 × 150 W
Battery pack	e.g. 720 Ah 48 V
Autonomy	Up to 50 h
Weight	approx. 1,440 kg
Dimensions closed	120 × 120 × 253 cm
Dimensions deployed	200 × 200 × 850 cm
Stabilisation	4 extendable outriggers with levelling feet
Frame	Hot-dip galvanised steel

OPTIONS

- Timer
- Emergency light switching
- Battery charger
- Light sensor
- Cable reel
- Personalised branding

APPLICATIONS

- Residential areas & city centres
- Events
- Construction
- Night work

IDEAL FOR noise-sensitive and low-emission zones where a diesel light mast is not welcome.
