PRODUCT SHEET

STALICO® CO² Neutral Balloon Light 6.5 m

600 W LED balloon light — glare-free 360°, emission-free

Balloon light extended to 6.5 m

The STALICO® CO2 Neutral Balloon Light is one of the most sustainable light masts on the market. It provides lighting without generator, refuelling or mains supply — autonomous and silent. With a battery bank of e.g. 720 Ah 48 V it delivers approx. 50 hours of 600 W LED balloon lighting. The light mast container can be moved, stacked and lifted, is very stable and is set up by one person.

BENEFITS

- 360° shadow-free light — 56,000 lm
- Approx. 50 h autonomy (e.g. 720 Ah 48 V)
- No generator, no fuel, silent
- Set up by one person
- Stackable and crane-liftable

TECHNICAL SPECIFICATIONS

Mast height	Telescopic, adjustable 2.5 – 6.5 m
Lamp	1 × 600 W LED balloon
Luminous flux	56,000 lm · 360° without shadow
Total consumption	600 W
Battery pack	e.g. 720 Ah 48 V
Autonomy	approx. 50 h
Weight	approx. 1,440 kg
Dimensions closed	120 × 120 × 253 cm
Dimensions deployed	200 × 200 × 650 cm

APPLICATIONS

- Events
- Construction
- Emergency lighting
- Accident & incident sites

IDEAL FOR glare-free area lighting for events and emergency services — soft light, no noise, no exhaust.
