Working height	780 - 830mm
Machine mass	5400kg
Press throat opening	3984(w) x 45(h)mm
Roll diameter	600mm
Operating temperature	-5 - 40°C
Electrical requirement	415V 32A 3Ph + Neutral & Earth

* Specifications & design are subject to change, please confirm details when placing your order.

OVERVIEW

The Finishing Roller is designed to provide the final force required to embed the nail plate into the timber component of a roof truss. This is achieved by rolling the truss through the top and bottom rollers.

This machine also has exceptional longevity!

FEATURES

- Heavy duty construction
