

Sheather 5 Gun 2 Saw

SPECIFICATIONS

Overall length, width, height	8500 x 4580 x 2300mm
Min/Max frame height	1800 - 3600mm
Max frame length	6000mm
Min/Max nail	50 - 90mm
Working height	950mm
Safe working load	1000kg
Machine mass	4600kg
Operational noise	90db
Operating temperature	0 - 40°C
Blade (Dia., Bore, #Teeth)	254, 30, 100
Blade motor	3kW
Electrical requirement	400V 25A 3Ph+Neutral
Air requirement	250L/min @ 6-8 Bar

* Specifications & design are subject to change, please confirm details when placing your order.

OVERVIEW

Set and forget as the Sheather 5 Gun 2 Saw one touch automation, means the operator loads each frame and lets the machine do the rest. With the capability of shooting up to 10 nails per second from all 5 guns, and clamping and straightening studs from the underside to prevent shiners, this machine delivers a perfectly sheathed wall in minutes.

A fantastic addition to your wall frame line, providing sheathing without being labour intensive.

FEATURES

- Fully automated, CNC machine
- 5 high speed nail guns comprised of 2 fixed and 3 floating gun mounts
- 2 saws which provide cutting tabs with a max cutting depth of 45mm
- Automatically clamps and straightens studs during fixing
- Nail guns rotate 90 degrees for horizontal nailing
- Nail guns tilt 15 degrees for ease of nailing joints
- Can fire maximum 90mm nails
- Wall frame is moved under fixed gun bridge
- Movable auto table to allow for different frame sizes – maximum 6m frame length
- Software accurately time stamps panels
- Designed for 1 person operation
- Interlocked safety guarding and safety belt
- 24" industrial touch screen
- Dust extraction ducting

OPTIONS

- Perfectly paired with the Build Table
- Also available for maximum frame height of 4800mm
- Dust Collector
- If you're not wanting the cutting capability, then ask us about our Sheather with 5 guns, no saws.
