Air requirement	60L/min @ 8 Bar

* Specifications & design are subject to change, please confirm details when placing your order.

OVERVIEW

The Component Nailer is designed to accurately nail timber components together before frame assembly. The nailer will clamp and nail one nog at a time onto a stud as required.

FEATURES

- Caters from 90mm to 190mm timber
- Nog clamps keep operator's hands out of nailing area
- Safety isolation of gun firing on clamps to make sure timber is present

OPTIONS

- Customised table length proportionate to stud length
- Left and right hand configurations
