Min/Max nail	2 - 3.5in
Working height	37.4in
Safe working load	2200lb
Machine mass	10120lb
Operational noise	90db
Operating temperature	32 - 104°F
Blade (Dia., Bore, #Teeth)	254, 30, 100
Blade motor	4hp
Electrical requirement	400V 25A 3Ph+Neutral
Air requirement	8.8CFM @ 116psi

* Specifications & design are subject to change, please confirm details when placing your order.

OPTIONS

- Additional gun bridge
- Perfectly paired with the Build Table
- Also available for maximum frame height of 16ft
- Dust Collector
- If you're not wanting the cutting capability, then ask us about our Sheather with 5 guns, no saws.

OVERVIEW

Set and forget as the Sheather 5 Gun 2 Saw one touch automation, means the operator loads each frame and lets the machine do the rest. With the capability of shooting up to 10 nails per second from all 5 guns, and clamping and straightening studs from the underside to prevent shiners, this machine delivers a perfectly sheathed wall in minutes. A fantastic addition to your wall frame line, providing sheathing without being labor intensive.

FEATURES

- Fully automated, CNC machine
- 5 high speed nail guns comprised of 2 fixed and 3 floating gun mounts
- 2 saws which provide cutting tabs with a max cutting depth of 1.75in
- Automatically clamps and straightens studs during fixing
- Nail guns rotate 90 degrees for horizontal nailing
- Nail guns tilt 15 degrees for ease of nailing joints
- Can fire maximum 3 ½ inch nails
- Wall frame is moved under fixed gun bridge
- Movable auto table to allow for different frame sizes – maximum 20ft frame length
- Software accurately time stamps panels
- Designed for 1 person operation
- Interlocked safety guarding and safety belt
- 24" industrial touch screen
- Dust extraction ducting
- UL Listed Industrial Control Panels
