Operational noise	50db
Press throat opening	1 - 3.5in
Roll diameter	23.6in
Electrical requirement	460V 32A 3Ph

* Specifications shown reflect a typical configuration. Machine design, layout and features may vary depending on final configuration and customer requirements. Details will be confirmed at the time of order.

OVERVIEW

This 15ft Finishing Roller is designed to provide the final force required to embed the nailplate into the lumber component of a roof truss. This is achieved by rolling the truss through the top and bottom rollers. This machine also has exceptional longevity!

FEATURES

- Heavy duty construction
- Reduce wear and tear on gantry and table
- See through guards
- Safety lanyard
